In the second part of this book I will switch to PayPal Subscriptions API This API has not been ported to Version 2 yet so we have to use Version 1 API for subscription To make matters even worse PayPal has never released a stable Subscriptions NET SDK which makes it difficult for NET developers to integrate PayPal Subscriptions API into NET and NET Core applications Therefore I decide to implement a simple PayPal Subscriptions NET SDK which simply exposes various static methods that can be used to integrate PayPal Subscriptions API into NET applications I will use several examples to illustrate how to use this SDK to complete subscription transactions
