[**Review**](#) Arthur Cayley Headlam, 1885 [**Gaming Democracy**](#) Adrienne L. Massanari, 2024-10-29 How play and gaming

culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far

right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and

alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to

the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on

meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media

spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to

game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such

as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both

technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent

Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of

community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well

as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far

platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse

of youth digital health different from the adult led framing represented in youth digital health research policy and service

peer influence or casual teenage talk This book argues that online peer led dialogues support young people's agency in

health and that young people can benefit from dealing with health issues with peers The work is based on the digital

ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory

originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth

led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people
