Dimensions of Regenerative Practices in Tourism and Hospitality Tyagi, Pankaj Kumar, Nadda, Vipin, Kankaew, Kannapat, Dube, Kaitano, 2024-06-24 The tourism industry faces a pressing challenge balancing economic growth with environmental preservation and social responsibility. Traditional tourism models often lead to environmental degradation, cultural homogenization, and economic disparities. Local communities are marginalized and natural resources are depleted, threatening the industry's long-term sustainability. Moreover, the COVID-19 pandemic has highlighted the industry's vulnerability to external shocks, emphasizing the need for resilient and sustainable practices. Dimensions of Regenerative Practices in Tourism and Hospitality offers a comprehensive solution to these challenges. The book provides practical guidelines for businesses and practitioners to adopt regenerative practices effectively by showcasing innovative and sustainable initiatives. It explores the role of local communities in shaping and benefiting from sustainable tourism, emphasizing the importance of collaboration among stakeholders. Additionally, the book evaluates the environmental impact of different approaches within the industry and promotes ethical behavior, encouraging fair treatment of employees, communities, and cultural heritage.

Data Science Doug Rose, 2016-11-17 Learn how to build a data science team within your organization rather than hiring from the outside. Teach your team to ask the right questions to gain actionable insights into your business. Most organizations still focus on objectives and deliverables. Instead, a data science team is exploratory. They use the scientific method to ask interesting questions and run small experiments. Your team needs to see if the data illuminate their questions. Then they have to use critical thinking techniques to justify their insights and reasoning. They should pivot their efforts to keep their insights aligned with business value. Finally, your team needs to deliver these insights as a compelling story. Insight: How to Build Data Science Teams that Deliver Real Business Value shows that the most important thing you can do now is help your team think about data. Management coach Doug Rose walks you through the process of creating and managing effective data science teams. You will learn how to find the right people inside your organization and equip them with the right mindset. The book has three overarching concepts: You should mine your own company for talent. You can't change your organization by hiring a few data science superheroes. You should form small, agile-like data teams that focus on delivering valuable insights early and often. You can make real changes to your organization by telling compelling data stories. These stories are the best way to communicate your insights about your customers' challenges and industry. What You Will Learn: Create data science teams from existing talent in your organization to cost efficiently extract maximum business value from your organization's data. Understand key data science terms and concepts. Follow practical guidance to create and integrate an effective data science team with key roles and the responsibilities for each team member. Utilize the data science life cycle (DSLC) to model essential processes and practices for delivering value. Use sprints and storytelling to help your team stay on track and adapt to new knowledge.
