International Sports Volunteering Angela M. Benson, Nicholas Wise, 2017-04-21. Sport volunteering is becoming an increasingly popular motive for international travel. Many tourism organisations now advertise sport volunteering projects with colleges and universities also offering students the opportunity to participate in similar projects abroad. This is the first book to bring together diverse and interdisciplinary insights into the development of the contemporary sport volunteering phenomenon. It addresses conceptual uncertainties and challenges emerging from the growing international sport volunteering market and offers insight into its future directions, impact and sustainability. Drawing on both quantitative and qualitative methodologies, Part I examines volunteering in the context of international sporting events while Part II evaluates volunteering initiatives related to sport development. Including case studies from Australia, Cameroon, Namibia, Norway, Russia, the UK, the US and Zambia, this substantial volume provides a truly international perspective on the changing roles of sport volunteering. Showcasing the latest research from across the globe, International Sports Volunteering is a valuable resource for any course on sport studies, sport event management, sport development, sport tourism, sport geography, the sociology of sport or leisure studies.

International Diplomacy and the Olympic Movement Aaron Beacom, 2012-07-31. This book explores the relationship between diplomatic discourse and the Olympic Movement, charting its continuity and change from an historical perspective. Using the recent body of literature on diplomacy, it explores the evolution of diplomatic discourse around a

number of themes in particular the increasing range of stakeholders engaged in the Olympic bid disability advocacy and the mainstreaming of the Paralympic Games and the evolution of the Olympic boycott The work addresses the increasing engagement of a number of non state actors in particular the IOC and the IPC as indicative of the diffusion of contemporary diplomacy At the same time it identifies the state as continuing in the role of primary actor setting the terms of reference for diplomatic activity beyond the pursuit of its own policy interests Its historical investigation based around a UK case study provides insights into the characteristics of diplomatic discourse relating to the Games and creates the basis for mapping the future trajectory of diplomacy as it relates to the Olympic Movement **International Review for the Sociology of Sport**
