## Spring Break 2015 New York:

**Applicative Justice** Naomi Zack, 2016-03-04 Naomi Zack pioneers a new theory of justice starting from a correction of current injustices While the present justice paradigm in political philosophy and related fields begins from John Rawls's 1970 Theory of Justice Zack insists that what people in reality care about is not justice as an ideal but injustice as a correctable ill For a way to describe real injustice and the society in which it occurs Zack resurrects Arthur Bentley's key insight that government and law or political life is a constant process of contending interest groups throughout society Bentley's main idea allows for a resolution of the contradiction between formal legal equality for US minorities and post civil rights practical inequality Just law and unjust practice coexist as a fact of political life The correction of injustice in reality requires applicative justice in a comparison between those who are treated unjustly with those who are treated justly and the design of effective measures to equalize such treatment Zack's theory of applicative justice offers a revolutionary reorientation of society's pursuit of justice seeking to undo injustice in a practical and fully achievable way

**Global Borderlands** Victoria Reyes, 2019-09-03

The U.S. military continues to be an overt presence in the Philippines and a reminder of the country's colonial past Using Subic Bay a former U.S. military base now a Freeport Zone as a case study Victoria Reyes argues that its defining feature is its ability to elicit multiple meanings For some it is a symbol of imperialism and inequality while for others it projects utopian visions of wealth and status Drawing on archival and ethnographic data Reyes describes the everyday experiences of people living and working in Subic Bay and makes a case for critically examining similar spaces across the world These foreign controlled semi autonomous zones of international exchange are what she calls global borderlands While they can take many forms ranging from overseas military bases to tourist resorts they all have key features in common This new unit of globalization provides a window into broader economic and political relations the consequences of legal ambiguity and the continuously reimagined identities of the people living there Rejecting colonialism as merely a historical backdrop Reyes demonstrates how it is omnipresent in our modern world
