This manual steps the student through all essential ASE Education Foundation tasks including inspecting, testing, and diagnosing vehicle systems; removing and replacing self-contained components; and removing, overhauling, and reinstalling major components. This manual is divided into eight areas corresponding to the ASE certification areas and the eight areas of the ASE Education Foundation Task List. Each area of the manual is further subdivided into a number of projects or collections of closely related jobs. The eight areas of the manual, the projects, and the jobs they contain are color-coded to make it easy to locate specific content in the manual. The projects in this manual include a brief introduction about the type of service being performed, a list of the jobs included in the project, and a tools and materials list for the jobs. The jobs in this manual are designed to be accomplished in one or two lab sessions. Check boxes are provided in the left-hand column of the job so the student can mark off tasks as they are performed. Blanks are provided for recording service-related information.
