perspectives on business The volume travels outside the world of business to explore what Humanities such as Philosophy History Literature Creative Arts and Cultural Studies can offer to business Renowned scholars from different Humanities disciplines as well as management researchers exploring the heritage of Humanities convey what it actually means to make business more humane The book strives to humanize business It aims to show that it is not people who have to suppress their human feelings aspirations and beliefs when they are at their workplaces but it is business itself that needs to be redefined by the human norms of human beings Companies should care about their employees and other stakeholders letting them be themselves i e be human at work and beyond The book will be of interest to management scholars across various business disciplines It can also be used as teaching material in the classroom with MBA students especially in Business Ethics Business and Society Sustainability Organizational Behavior Human Resource Management and other management courses The volume will also be of interest to scholars that work in different Humanities fields and whose interests span organizations management and business Finally many practitioners in the business world especially those in managerial and leadership positions will find the book both thought provoking and useful for them as well Chapter 37 is available open access under a Creative Commons Attribution 4 0 International License via link.springer.com

Convincing Political Stakeholders Klemens Joos, 2016-12-19 With the Treaty of Lisbon which entered into force on 1 December 2009 the EU de facto became a state territory stretching from Portugal to Finland and from Ireland to Cyprus The previous co decision procedure was elevated to become the standard procedure ordinary legislative procedure For the players on the European Union stage the EU member states EU regions companies associations and organisations this leads to the problem that the outcome of decision making processes has become largely incalculable The author Klemens Joos points out that at the latest since the Treaty of Lisbon successful lobbying in the complex decision making system of the EU is much more the result of the intermesh of content competence the four classic instruments of lobbying corporate representative of firms associations public affairs agencies law firms with process structure competence i e the EU wide maintenance of the required spatial personnel and organisational capacities as well as strong networks across institutions political groups and member states on the part of an independent intermediary One's own concerns are only likely to be successful if the interests of politicians and the general public are taken into consideration change in perspective to the common interest perspective If this perspective change is successful process support competence is crucial to achieving the objective

Stakeholder Theory Maria Bonnafous-Boucher, Jacob Dahl Rendtorff, 2016-11-08 This book provides an academic introduction to and presentation and defence of stakeholder theory as a model for the strategic management of businesses and corporations as well as of public organizations and institutions The concept of the stakeholder is generally applied to parties that affect or are affected by the activities of private or public organizations Distinct from shareholders stakeholders are those individuals entities or communities that have a connection with the activities of a corporation a firm or an organization The notion of the

stakeholder is intimately linked to a conception of the business firm as an entity founded on negotiated governance in which the maximization of value for the shareholder is not the ultimate criterion. In this model, issues and interests that are not directly associated with shareholders and investors but which go beyond capital to encompass the concerns of civil society are considered to be of central importance. This book provides a broad overview of stakeholder theory, presenting it as an ethical approach to strategic management that is both pragmatic and applicable to developing democratic practices within corporations while at the same time suggesting ways in which elements of a social contract can be elaborated within the context of globalization.

Corporate Governance and Accountability Jill Solomon, 2020-11-20. *Corporate Governance and Accountability* presents students with a complete and current survey of the latest developments involving how a company is directed and controlled. Providing a broad research-based perspective, this comprehensive textbook examines global corporate governance systems, the role and responsibilities of the directorate, and the frameworks designed to ensure effective corporate accountability for stakeholders. A holistic approach to the subject enables students to develop a well-rounded knowledge of corporate governance theory and practice, policy documents, academic research, and current debates, issues, and trends. Now in its fifth edition, this comprehensive view of the corporate governance agenda features fully revised content that reflects new research and global developments in codes of practice and governance and accountability mechanisms. In-depth chapters contain numerous real-world case studies and compelling debate and discussion topics exploring corporate transparency, social responsibility, boardroom diversity, shareholder activism, and many other timely issues.
