Clinical Case Studies in the Behavioral Treatment of Alcoholism William M. Hay, Peter E. Nathan, 2012-12-06 There is no shortage of books on behavioral research on behavioral research on alcoholism or on behavioral research on alcoholism treatment. Most of the authors of chapters in this book have been involved in the writing of these books. The books and their authors have played an important role in the dramatic increase in the influence of behavioral approaches to one of our society's most troubling human problems. There are not many books though which detail the longitudinal course of the behavioral therapies none doing so for behavior therapy with alcoholics and problem drinkers. That this book now appears then is a first made more valuable by the fact that the chapter's authors are both researchers and clinicians willing and able to combine respect for empirical data with clinical sensitivity and compassion concern and commitment for their patients. The chapters in this book reveal important commonalities and telling divergencies in technique strategy and treatment tactics. Despite a common perspective on etiology and treatment the authors of the chapters in this book diverge in criteria for deciding on treatment goal choice of initial intervention target the specifics of techniques used and follow up procedures. Common to all though is an openness to innovation a pragmatic appreciation of approaches that work and a sincere respect for the patient and his or her fundamental desire for a healthy happier and more productive life.

As restrictions continue to be placed on private investigative activities private investigators need to reevaluate personal skills and discover how these may relate to expanding their services. This book provides the necessary information for learning about these new skill areas and provides the necessary strategies for their implementation. Some of the topics cover crime and loss prevention strategies risk assessment and prevention strategies. Many other topics are also covered such as that of the expert witness.
