Stanley Kubrick Interviews Conversations With Filmmakers:

Stanley Kubrick Gene D. Phillips, 2013-07-08 From his first feature film *Fear and Desire* 1953 to his final posthumously released *Eyes Wide Shut* 1999 Stanley Kubrick excelled at probing the dark corners of human consciousness In doing so he adapted such popular novels as *The Killing* *Lolita* *A Clockwork Orange* and *The Shining* and selected a wide variety of genres for his films black comedy *Dr Strangelove* science fiction 2001 *A Space Odyssey* and war *Paths of Glory* and *Full Metal Jacket* Because he was peerless in unveiling the intimate mysteries of human nature no new film by Kubrick ever failed to spark debate or to be deeply pondered Kubrick 1928 1999 has remained as elusive as the subjects of his films Unlike many other filmmakers he was not inclined to grant interviews instead preferring to let his movies speak for themselves By allowing both critics and moviegoers to see the inner workings of this reclusive filmmaker this first comprehensive collection of his relatively few interviews is invaluable Ranging from 1959 to 1987 and including Kubrick's conversations with Gene Siskel Jeremy Bernstein Gene D Phillips and others this book reveals Kubrick's diverse interests nuclear energy and its consequences space exploration science fiction literature religion psychoanalysis the effects of violence and even chess and discloses how each affects his films He enthusiastically speaks of how advances in camera and sound technology made his films more effective Kubrick details his hands on approach to filmmaking as he discusses why he supervises nearly every aspect of production All the hand held camerawork is mine he says in a 1972 interview about *A Clockwork Orange* In addition to the fun of doing the shooting myself I find it virtually impossible to explain what I want in a hand held shot to even the most talented and sensitive camera operator Neither guarded nor evasive the Kubrick who emerges from these interviews is candid opinionated confident and articulate His incredible memory and his gift for organization come to light as he quotes verbatim sections of reviews books and articles Despite his reputation as a recluse the Kubrick of these interviews is approachable witty full of anecdotes and eager to share a fascinating story Gene D Phillips S J is a professor of English at Loyola University in Chicago where he teaches fiction and the history of film He is the author of many notable books on film and is a founding member of the editorial board of both *Literature Film Quarterly* and *The Tennessee Williams Journal* He was acquainted with Stanley Kubrick for twenty five years

We'll Meet Again Kate McQuiston, 2013-12 Unique and often startling encounters between music and the moving image in the films of Stanley Kubrick are trademarks of his style witness the powerful effects of Strauss's *Also Sprach Zarathustra* in 2001 *A Space Odyssey* and of Beethoven's 9th Symphony in *A Clockwork Orange* each excerpt vetted by Kubrick himself *We'll Meet Again* argues that for Kubrick music is neither post production afterthought nor background nor incidental but instead is core to films effects and meanings The book first identifies the building blocks in Kubrick's sonic world and illuminates the ways in which Kubrick uses them to support his characters and to define character relationships It then delves into the effects of Kubrick's signature musical techniques including the use of texture form and inscription to render and reinforce psychological ideas and spectator responses Finally

it presents case studies that show how the history of the music plays a vital and dynamic role for the films As a whole the book locates Kubrick as a force in music reception history by examining the relationship between his musical choices and popular culture and reveals the foundational role of music in his filmmaking **Martin Scorsese** Vincent

LoBrutto,2007-11-30 Martin Scorsese s current position in the international film community is unrivaled and his name has become synonymous with the highest standards of filmmaking excellence He is widely considered America s best living film director and his Taxi Driver and Raging Bull appear frequently on worldwide surveys of the best films of all time Here in the first biographical account of this artist s life Vincent LoBrutto traces Scorsese s Italian American heritage his strict Catholic upbringing the continuing role of religion in his life and art his obsessive love of cinema history and the powerful impact that the streets of New York City had on his personal life and his professional career Meanwhile the filmmaker s humble soft spoken public persona tells only part of the story and LoBrutto will delve into the other side of a complex and often tortured personality Scorsese s intense passion his private relationships his stormy marriages and his battles with drugs and depression are all chronicled here and in many cases for the first time In addition the book includes an interview with the director as well as filmographies cataloging his work as a director producer actor and presenter As his Best Director award at the 2007 Oscars clearly demonstrated Scorsese has become something like Hollywood royalty in recent years finally enjoying the insider status and favor that eluded him for most of his career But these recent developments aside Scorsese is also notable as a distinctly American type of artist one whose work created in a medium largely controlled by commercialism and marketing has always been unmistakably his own and who thus remains a touchstone of artistic integrity in American cinema In *Martin Scorsese A Biography* readers can examine not only the work of one of the form s genuine artists but also the forces that have propelled the man behind it *Conversations with Gus Van Sant* Mario Falsetto,2015-03-12 One of the most talented and imaginative artists of independent cinema Gus Van Sant established himself with a number of important movies of the late 1980s and early 1990s Beginning with *Mala Noche* the 1986 gay classic of personal film expression followed by two key works of the American indie movement *Drugstore Cowboy* and *My Own Private Idaho* Van Sant films often feature characters on the borders of mainstream society Subsequent films included hits *Misses* and a notorious remake of *Psycho* Regardless of the critical or commercial response to his work Van Sant has maintained a vision that is unique among contemporary filmmakers *Conversations with Gus Van Sant* is the first critical study to include both extensive original interviews with the director as well as discussions of his entire body of work The exchanges between film scholar Mario Falsetto and the indie filmmaker cover fifteen films directed by Van Sant over a period of thirty years Throughout these discussions Van Sant talks candidly about each film s production history visual style editing patterns and creative soundwork The director also expounds on his work with actors the relationship of independent filmmakers to the wider film industry and many other subjects related to his filmmaking process The conversations examine the rich thematic explorations of Van Sant

s films which often revolve around the search for love and community on the margins of society and feature a fascination with death From experimental films such as *Gerry* *Last Days* *Elephant* and *Paranoid Park* where Van Sant rebooted his understanding of cinema and his relationship to the Hollywood film industry to *Milk* and *Promised Land* this book explores the rich network of meanings in the director's work By melding the author's critical perspective with the filmmaker's own ideas *Conversations with Gus Van Sant* creates a wider perspective on one of the most iconoclastic and imaginative directors of the last thirty years

The Distinction of Human Being Thomas Kruger Caplan, 2015-07-01 Perhaps we are never done with thought nor should be If this is indeed the case then Kant may have been right after all in supposing that folks will never lose interest in metaphysics in thought thinking thought But what of academics Where would we find these days a comprehensive treatment of pure reason of the epochs of its origins and accomplishments that is not just another collection of interpretations of source texts in translation This study introduces philosophy students and professionals to the logotectonic method of conception as developed by Heribert Boeder a pupil of Martin Heidegger which is broadly structuralist in its approach but endeavors to make evident how the principles of rationality governing the Occidental tradition of logos even those dictated by the animus of our post modern world of thought in opposition to it are in fact founded upon the nature of pure reason itself the intellect the discipline and the art of which can be understood as constituting a unique language containing a vocabulary of distinguished terms a syntax that determines their ratios and rules of inference with which these terms of principle insight and issue are built into trains of thought about thought every thought As a result the wisdom of the Muses Homer Hesiod Solon of the Holy Spirit the Synoptic Narratives of Mark Luke and Matthew the Apostolic Letters of Paul the Gospel of John and of Humanity Rousseau Schiller Herderlin can be seen to have thrice articulated in their own terms a moving vision of our experience with the distinction of human being inspiring critical reflection to consider the as a destiny with regards to which even we as the thinkers the doers and the builders of today are still learning what it means to make a difference *The Distinction of Human Being* offers contemporary thinkers beginners as well as professionals a comprehensive reading of the origin and the tradition of metaphysics encompassing the life and times of pure reason as it unfolds across its theoretical practical and poetic endeavor the last of which suggests what a philological philosophy might entail and demand of a new generation of friends of wisdom
