

A black and white photograph of a thatched roof, likely from a traditional building. The thatch is made of long, light-colored stalks, possibly rice or wheat, hanging down. Two faces are visible through the eaves of the roof, looking out. The faces are partially obscured by the thatch and the dark interior of the building.

Weapons Of The Weak Everyday Forms Of Peasant Resistance

Roger W. Cobb, Marc Howard Ross

Weapons Of The Weak Everyday Forms Of Peasant Resistance:

Weapons of the Weak James C. Scott, 2008-10-01 *Weapons of the Weak* is an ethnography by James C. Scott that studies the effects of the Green Revolution in rural Malaysia. One of the main objectives of the study is to make an argument that the Marxian and Gramscian ideas of false consciousness and hegemony are incorrect. He develops this conclusion throughout the book through the different scenarios and characters that come up during his time of fieldwork in the village. This publication based on 2 years of fieldwork 1978-1980 focuses on the local class relations in a small rice farming community of 70 households in the main paddy growing area of Kedah in Malaysia. Introduction of the Green Revolution in 1976 eliminated 2/3 of the wage earning opportunities for smallholders and landless laborers. The main ensuing class struggle is analyzed being the ideological struggle in the village and the practice of resistance itself consisting of foot dragging, dissimulation, desertion, false compliance, pilfering, feigned ignorance and sabotage acts. Rich and poor are engaged in an unremitting if silent struggle to define changes in land tenure, mechanization and employment to advance their own interests and to use values that they share to control the distribution of status, land, work and grain.

Everyday Forms of Peasant Resistance Forrest D.

Colburn, 2016-07-22 Peasant rebellions are uncommon. *Everyday Forms of Peasant Resistance* explores peasants' foot dragging, feigned ignorance, false compliance, manipulation, flight, slander, theft, arson, sabotage and similar prosaic forms of struggle. These kinds of resistance stop well short of collective defiance, a strategy usually suicidal for the subordinate. The central argument about peasant resistance is presented in the opening chapter by James Scott in which he summarizes and extends the thesis of his book on Malaysia's peasantry. *Weapons of the Weak* Scott's ideas are employed and refined in the ensuing seven country studies of peasant resistance: Poland, India, Egypt, Colombia, China, Nicaragua and Zimbabwe.

Korea

Briefing Kong Dan Oh, Ralph C. Hassig, 2002 This new edition of *Korea Briefing* provides a timely analysis of the evolving relationship between South and North Korea. In June 2000, after years of ignoring the South Korean government, the North Korean leader Kim Jong Il finally agreed to a summit meeting with South Korea's President Kim Dae Jung. As a sign of reconciliation, the summit meeting has prompted Korea and its neighbors to rethink the assumptions of the Cold War era. With contributions by a multi-national panel of Korean experts, the book discusses a wide range of topics including South Korean politics and economy, Korea's relations with its neighbors and with the United States, recent changes in North Korea, the fate of North Korean defectors and lessons in German reunification for the two Koreas. The discussions are supplemented by a glossary, a chronology of events occurring from June 1999 to June 2001 and a bibliography.

Peasants without the Party Lucien Bianco, 2015-03-04 Exploring one of the most dynamic and contested regions of the world, this series includes works on political, economic, cultural and social changes in modern and contemporary Asia and the Pacific. The leading specialist on China's twentieth century peasant resistance reexamines in bold and original ways the question: Was the Chinese peasantry a revolutionary force? Where most scholarly attention has focused on Communist led peasant movements

Bianco's story is one of peasant thought and action largely unmediated by modern political parties. This volume pays particular attention to the first half of the twentieth century when peasant based conflict ranging from tax and food protests to secret society conflicts, opium struggles, inter communal conflicts and tenant protests over rent was central to nationwide revolutionary processes. The Right to Resist Mario Wenning, Thomas Byrne, 2023-01-12. While the idea of total revolution seems anachronistic today, there is increasing consensus about the importance of new forms of political, ethical and aesthetic resistance. In the past, resistance was often motivated as a form of protest against specific institutions. Increasingly, dissent has become integrated into the fabric of modern life. This volume addresses new forms of resistance at a level that combines a rootedness in the philosophical tradition and a sensitivity to rethinking the possibility of emancipation in today's age. The work focuses on contemporary social and political philosophy from a perspective informed by critical theory. The text specifically addresses three challenges: 1. Critical theorists need to investigate in which ways resistance, conformism and oppression oppose and constitute each other. 2. The relationship between the theory and the practice of resistance needs to be posed anew given recent protest movements and media of protest. 3. It needs to be shown in which ways different areas of society such as the arts, religion and social media establish divergent practices of resistance. The chapters are written by scholars from Asia, Europe and North America. These experts in resistance discourse focus on practices of dissent ranging from traditional forms of civil disobedience to more recent practices such as guerrilla protest art and resistance in digital networks including social media. What unites them is a shared concern for the dimensions of political acts of resistance in an age that is characterized by a tendency to integrate and thereby neutralize those very acts. **Pain, Penance, and Protest** Sara M. Butler, 2021-11-18. In medieval England, a defendant who refused to plead to a criminal indictment was sentenced to pressing with weights as a coercive measure. Using *peine forte et dure* (strong and hard punishment) as a lens through which to analyse the law and its relationship with Christianity, Butler asks where do we draw the line between punishment and penance. And how can pain function as a vehicle for redemption within the common law. Adopting a multidisciplinary approach, this book embraces both law and literature. When Christ is on trial before Herod, he refused to plead his silence, signalling denial of the court's authority. England's discontented subjects, from hungry peasant to even King Charles I himself, stood mute before the courts in protest. Bringing together penance, pain and protest, Butler breaks down the mythology surrounding *peine forte et dure* and examines how it functioned within the medieval criminal justice system. **Native Activism in Cold War America** Daniel M. Cobb, 2008. Broadens the scope and meaning of American Indian political activism by focusing on the movement's early and largely neglected struggles, revealing how early activists exploited Cold War tensions in ways that brought national attention to their issues. **Yale Journal of Law & the Humanities**, 1995. *Algonkians of New England* Peter Benes, 1993. Cultural Strategies of Agenda Denial Roger W. Cobb, Marc Howard Ross, 1997. This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are

denied access to policy agendas The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities

Gender and Research: Men's studies, queer theory, polyvocality Sara Delamont, Paul Atkinson, 2008 For the past thirty years there have been vigorous debates about the roles played by gender sexuality and sexual orientation in research This collection brings together the debates together set them into their historical and theoretical context and deal with the major criticisms and refutations A particular strength of this collection is that it will available a key sources otherwise scattered and hard to obtain Volume I discusses three sub themes the context in which gender became a matter of concern for researchers the context in which feminist methods were developed and the re discovery of the methodological work of well known women such as Jane Addams and Florence Nightingale Volume II looks at research that has been conducted with explicit awareness of gender Volume III focuses on the pioneering work of innovative scholars who argued for feminist methods in the years after 1950 It then goes on to investigate research that defended and debated the formulations of feminist methods Finally volume IV explicitly relates the themes of Queer Theory Subaltern Theory and Polyvocality themes that evolved with feminist methods to those topics showcased in the other three volumes
