Weird Tales of Creepy Crawlies - A Fine Selection of Fantastical Short Stories of Mysterious Insects and Spiders (Cryptofiction Classics - Weird Tales of Strange Creatures) Various, 2015-02-17 These early works by various authors were originally published in the late 19th century and early 20th century and we are now republishing them with a brand new introduction as part of our Cryptofiction Classics series **Weird Tales of Creepy Crawlies** contains a collection of short stories about mysterious insects and arachnids and includes *The Strong Spider* by Edgar Allan Poe 1846 *The Messenger* by Robert W Chambers 1897 *The Empire of the Ants* by H G Wells 1905 and many more The stories in this collection were mostly written around the turn of the century And most of them reflect what has been a pretty consistent human reaction to insects as evidenced throughout the literary tradition fascination and disgust in equal measure Despite the Romantics best efforts the perception of insects as repulsive threatening and unclean the carriers of pestilence and plague in the bible the exemplifiers of foulness in Shakespeare has never quite gone away The Cryptofiction Classics series contains a collection of wonderful stories from some of the greatest authors in the genre including Ambrose Bierce Arthur Conan Doyle Robert Louis Stevenson and Jack London From its roots in cryptozoology this genre features bizarre fantastical and often terrifying tales of mythical and legendary creatures Whether it be giant spiders werewolves lake monsters or dinosaurs the Cryptofiction Classics series offers a fantastic introduction to the world of weird creatures in fiction *The Complete Weird Tales of H. P. Lovecraft* H.P. Lovecraft, 2015-10-01 WIKIPEDIA says H P Lovecraft s reputation has grown tremendously over the decades and he is now commonly regarded as one of the most important horror writers of the 20th century exerting an influence that is widespread though often indirect H P Lovecraft s tales of the tentacled Elder God Cthulhu and his pantheon of alien deities were initially written for the pulp magazines of the 1920s and 30s These astonishing tales blend elements of horror science fiction and cosmic terror that are as powerful today as they were when they were first published This electronic tome collects together Lovecraft s tales of terror including the complete Cthulhu Mythos cycle just the way they were originally published It will introduce a whole new generation of readers to Lovecraft s fiction as well as being a must buy for those fans who want all his work in a single definitive volume **Four Weird Tales** Robert W. Chambers, 2015-10-22 Adventures come to the

adventurous and mysterious things fall in the way of those who with wonder and imagination are on the watch for them but the majority of people go past the doors that are half ajar thinking them closed and fail to notice the faint stirrings of the great curtain that hangs ever in the form of appearances between them and the world of causes behind For only to the few whose inner senses have been quickened perchance by some strange suffering in the depths or by a natural temperament bequeathed from a remote past comes the knowledge not too welcome that this greater world lies ever at their elbow and that any moment a chance combination of moods and forces may invite them to cross the shifting frontier Some however are born with this awful certainty in their hearts and are called to no apprenticeship and to this select company Jones undoubtedly belonged All his life he had realised that his senses brought to him merely a more or less interesting set of sham appearances that space as men measure it was utterly misleading that time as the clock ticked it in a succession of minutes was arbitrary nonsense and in fact that all his sensory perceptions were but a clumsy representation of real things behind the curtain things he was for ever trying to get at and that sometimes he actually did get at He had always been tremblingly aware that he stood on the borderland of another region a region where time and space were merely forms of thought where ancient memories lay open to the sight and where the forces behind each human life stood plainly revealed and he could see the hidden springs at the very heart of the world Moreover the fact that he was a clerk in a fire insurance office and did his work with strict attention never allowed him to forget for one moment that just beyond the dingy brick walls where the hundred men scribbled with pointed pens beneath the electric lamps there existed this glorious region where the important part of himself dwelt and moved and had its being For in this region he pictured himself playing the part of a spectator to his ordinary workaday life watching like a king the stream of events but untouched in his own soul by the dirt the noise and the vulgar commotion of the outer world
