## **Welfare Expectant Mother Classic Reprint:**

The Welfare of the Expectant Mother (Classic Reprint) Mary Dacombe Scharlieb, 2015-07-11 Excerpt from The Welfare of the Expectant Mother This little book is an attempt to demonstrate the national necessity for safeguarding motherhood It is especially addressed to members of Local Authorities Midwives District and other Nurses School Teachers and the large body of Health Visitors and other helpers in Public Health work both voluntary and paid But I hope that it may not only serve as a guide to those who are already interested in the subject but may lead many others to see how largely the weal of the nation is dependent upon the welfare of the expectant mother In compiling the book I have derived much help from the writings of Sir Arthur Newsholme Dr Janet Campbell Dr Routh Dr Shadick Higgins Miss Rosalind Paget and others I should also like to offer my grateful thanks to the Publishers for invaluable help in passing the book through the press About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Healthy Babies** S. Josephine Baker, 2015-08-05 Excerpt from Healthy Babies A Volume Devoted to the Health of the Expectant Mother and the Care and Welfare of the Child The methods and advice given in this book on care of babies are first of all intended to be used in keeping babies well The book is in no sense intended as a method of treating sick babies nor should the advice that is given ever take the place of the individual care that can be offered by a doctor The methods of keeping babies well are simple and easy but the methods of curing babies after they are sick are difficult and often complicated It has been proved over and over again that babies can be kept well with very little effort and that any intelligent mother can learn all that is needful to assure good health in her baby There are certain minor forms of illness which can be corrected or cured simply by readjustment of the hygiene of the baby's life or perhaps by the use of some simple household remedies and there is no reason why the mother should not know and apply the proper treatment in cases of this kind but if actual illness occurs there should be no delay in obtaining the help of a qualified physician Saving babies has proved to be one of the most interesting and satisfactory types of health work that has ever been carried out in this or any other country About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve
