Yamazaki, 2011-12-15 A three volume essay writing course for students in American English **Notes for the General**

College Writing Laboratory University of Minnesota, 1979 Developing and Validating an Analytic Rating Scale for Large-Scale EFL Writing Assessment Shaoyan Zou, 2025-10-21 The debate between holistic and analytical scoring methods in second language assessment has long persisted. This book addresses the effectiveness and validity of the holistic rating scale used in China's high stakes CET 4 College English Test Band 4 writing tests via systematic case study analysis. Using a multi-phase mixed methods research methodology, the author creates and validates a new analytical rating scale that redefines and operationalizes critical aspects of writing assessment. Through extensive empirical evidence including rater cognition studies, expert reviews and Rasch based descriptor calibration, the author reveals the limitations of holistic scoring systems and demonstrates the necessity and validity of analytical methods. The author convincingly argues that this new scoring method translates to a more transparent, fair and diagnostic model for large scale EFL writing assessment. This book is an essential reference for researchers in applied linguistics, language assessment and English language education. It also offers valuable insights for assessment specialists, test developers and language policymakers seeking more effective evaluation frameworks.
