Writing Twice Self Translation Making Literature:

Writing it Twice Sara Kippur, 2015 Though the practice of self translation long predates modernity it has found new forms of expression in the global literary market of the late twentieth and early twenty first century The international renown of self translating authors Samuel Beckett Joseph Brodsky and Vladimir Nabokov has offered motivation to a new generation of writers who actively translate themselves Intervening in recent debates in world literature and translation studies *Writing It Twice* establishes the prominence and vitality of self translation in contemporary French literature Because of its intrinsic connection to multiple literary communities self translation prompts a reexamination of the aesthetics and politics of reading across national lines Kippur argues that self translated works should be understood as the paradigmatic example of world literature and as such crucial for interpreting the dynamics of literary circulation into and out of French *The Routledge Handbook of Literary Translingualism* Steven G. Kellman, Natasha Lvovich, 2021-09-30 Though it might seem as modern as Samuel Beckett Joseph Conrad and Vladimir Nabokov translingual writing texts by authors using more than one language or a language other than their primary one has an ancient pedigree *The Routledge Handbook of Literary Translingualism* aims to provide a comprehensive overview of translingual literature in a wide variety of languages throughout the world from ancient to modern times The volume includes sections on translingual genres with chapters on memoir poetry fiction drama and cinema ancient medieval and modern translingualism global perspectives chapters overseeing European African and Asian languages Combining chapters from lead specialists in the field this volume will be of interest to scholars graduate students and advanced undergraduates interested in investigating the vibrant area of translingual literature Attracting scholars from a variety of disciplines this interdisciplinary and pioneering Handbook will advance current scholarship of the permutations of languages among authors throughout time **The Routledge Handbook of Translation and Sexuality** Brian James Baer, Serena Bassi, 2024-08-19 *The Routledge Handbook of Translation and Sexuality* questions what it would mean to think of sexualities transnationally and explores the way cultural ideas about sex and sexuality are translated across languages It considers how scholars chart the multilingual rise of the modern sexual sciences in the nineteenth and twentieth centuries how translators writers and readers respond to sexual modernities and to what extent the keywords of queer social movements travel across borders The handbook draws from fields as diverse as translation studies critical multilingualism studies comparative literature European studies Slavic studies Middle Eastern studies Latin American studies and East Asian studies This pioneering handbook maps out an emerging brand of women s gender and sexuality studies that approaches sexualities as translational formations Divided into two parts the handbook covers Theoretical chapters on the interdisciplinary dialogue between translation studies and queer studies Empirical studies of both canonic and minor scientific religious literary philosophical and political texts about sex and sexuality in translation across a variety of world languages With 20 chapters written by leading academics from around the world *The Routledge Handbook of Translation and*

The Bilingual Muse Adrian Wanner,2020-06-15 The Bilingual Muse analyzes the work of seven Russian poets who translated their own poems into English French German or Italian Investigating the parallel versions of self translated poetic texts by Vladimir Nabokov Joseph Brodsky Andrey Gritsman Katia Kapovich Marina Tsvetaeva Wassily Kandinsky and Elizaveta Kul man Adrian Wanner considers how verbal creativity functions in different languages the conundrum of translation and the vagaries of bilingual identities Wanner argues that the perceived marginality of self translation stems from a romantic privileging of the mother tongue and the original text The unprecedented recent dispersion of Russian speakers over three continents has led to the emergence of a new generation of diasporic Russians who provide a more receptive milieu for multilingual creativity
