

В монографии рассматривается актуальная проблема научной объективности в рамках одного из видущих современных направлений в области философии науки – постпозитивизма. Решение задач в области методологии, наряду с анализом современного научного знания, требует обращения к историко-научному материалу как важному компоненту философско-методологического исследования. Реконструкция историко-научного материала позволяет методологу более обстоятельно анализировать такие важные в насторожнее время проблемы, как рост научного знания, генезис научных теорий, переход от одной теории к другой, природа научных революций и другие. Применение указанных проблемных находок сейчас в центре философско-методологических исследований. Для ученых, аспирантов и студентов, специализирующихся в области философии науки и техники.
