Smart Home (in Living Color)

Cathy Young,Michael Young,2018-05-25 1 New Release in Do It Yourself Home Improvement This is the same book as Smart Home but text and photos are in color for a better reading experience The idea of a smart home includes a wide variety of emerging technologies Examples include voice controlled digital assistants robots smart thermostats and blinds and unifying platforms like SmartThings and IFTTT if this then that In my home I incorporated a combination of these things Some overlap The technology is futuristic and frankly cool but it required me to change the way I interacted with the world around me Once my smart home was set up the way I wanted I had to be mindful that it was there to help me albeit not necessarily on my terms I had to learn how to interact with my digital assistants That journey is still unfolding and I expect my smart home to keep expanding and improving as more things are added This book started simply as the notes that my wife kept during our recent personal experiences with selecting and setting up smart home devices after we built a new house While whole home solutions like HomeSeer or SmartThings are available in the market we selected what we felt was the best product for each task and made sure they would all integrate with our existing home In the interest of full disclosure references to me or our attribute more credit to me than is due She was the driving force and brains behind the whole endeavor While researching our project we read a plethora of reviews from folks like us real people that is Some admittedly were more insightful than

others but we gained valuable insights into what to avoid what questions to ask etc and we found some great ideas If you are a DIY type or just want a general idea of what is going on with smart homes this book will show you a bit of what is possible By the end of this book indeed I hope that you will be comfortable in the Internet of Things or IoT world of connected devices digital assistants skills or IFTTT applets When you look at the table of contents it answers the question of what a smart home can do for you I also tried to organize it in such a way that you can quickly find what you're looking for Learn smart home terminology and what really matters when buying equipment Select good equipment and plan for future growth Set up and connect everything Maintain your smart home tags alexa smart home smart house smart sensors amazon echo home automation connected things echo echo dot echo show home security insteon smart home technology siri google assistant digital assistant personal assistant bixby cortana ifttt smartapps smart things smartthings smart devices smart speakers smart cities internet of things iot smart locks samsung artik artik alexa skills home security qubino yunomi
