

Spooner's Moving Animals is a marvelously ingenious book by an artist whose knowledge of paper mechanics is matched only by his singular imagination. A master of sculptural animation, Paul Spooner presents seven paper patterns – all with moving parts – to be cut out and assembled into an unlikely and amusing menagerie.

Spooner's unusual zoo brings the joys of creativity within the reach of anyone prepared to wrestle with an X-Acto knife, glue, and wooden sticks. This includes jigsaw addicts, model makers, sand-castle builders, engineers, architects, and entire families – adroit children of all ages.
