*Archive Histories* JAMES. FENWICK, 2024-09-28 The Stanley Kubrick Archive is a collection held at the University of the Arts London that contains material related to the life and work of Stanley Kubrick. But even though the archive has been branded as being about one man Kubrick its contents are much more diverse. There are records and objects about the wider industrial, cultural and social history of film production in the latter half of the twentieth century records and objects about the histories of fashion, stationery, photography, communication and media technologies and urban development historical resources pertaining to events such as the Holocaust, the life of Napoleon and the American Civil War and ephemera that has no immediately obvious research use. Media historian James Fenwick argues that the Stanley Kubrick Archive has been misunderstood as being solely about Kubrick and that it has much greater interdisciplinary potential. Fenwick opens up the discussion of the meaning and purpose of the Stanley Kubrick Archive by considering its material realities via a critical survey and archaeological analysis of its contents. By undertaking such an analysis Fenwick moves beyond the mythic status of the archive being Kubrick's archive and instead foregrounds the wider cultural value and significance of the collection and uses the archive to reveal histories, stories and ideas beyond a focus on Stanley Kubrick proving that the Stanley Kubrick Archive doesn't just have to be about Stanley. [Stanley Kubrick](#) Tatjana Ljujić, Peter Krämer, Richard Daniels, 2015 Stanley Kubrick: New Perspectives brings together essays by scholars who have examined the traces that Kubrick's work has left in archives in particular his own collection of film related materials which was donated to the University of the Arts London in 2007. Richly illustrated with film stills and previously unseen material from the Stanley Kubrick Archive this book is designed to open the reader's eyes to the wonder and richness of Kubrick's oeuvre. The collection held by the University is made up of a range of material including props, scripts, research, production paperwork such as call sheets, costumes and photographs for all his films and Look as well as material for those projects that were conceived but never visualised. By maintaining a high degree of control in the film making process Kubrick was able to retain material generated by his pioneering techniques of research and production work arguably making this collection one of the most complete examples of film making practice.

world wide Kubrick's films have inspired a huge amount of critical commentary yet until recently critics and scholars have made little use of archival resources The essays included in this collection offer new perspectives on Kubrick's working methods the manifold influences on his films their themes and style as well as their marketing and reception Between them the essays cover the totality of Kubrick's career from his beginnings as a photojournalist and documentary filmmaker in the late 1940s and early 1950s to his last movie *Eyes Wide Shut* which was released a few months after his death in 1999 Ranging from low budget noir thrillers to spectacular historical and futuristic epics from war films to erotic dramas from horror to topical movies Kubrick's work explores fundamental questions about sexuality and violence military organisations and combat male bonding and marriage human nature and social change In doing so he has produced iconic images and sounds representing key events and developments of the 20th century including World War I the threat of nuclear apocalypse the space race the Vietnam War the rise of juvenile delinquency and family breakdown *Eyes Wide Shut* Nathan
