**Returning to Me** S.L. Sterling, 2025-12-16 I always wondered where I went wrong in my life when it came to love I was serious with my high school sweetheart Noah or so I thought I went to college and he enlisted in the service We stayed in contact regularly and then nothing I always felt that something happened perhaps he met someone overseas and didn't know how to tell me Regardless I took my broken heart finished school and took over the family business running the only Christmas Tree Lot in Willow Valley In keeping with tradition Potts Family Tree Farm always picks a charity to work with for the holiday season This year I've partnered with a local charity to help the children of military families who lost a parent in the line of duty celebrate Christmas After our first meeting I came home and immediately noticed a dirty partially ripped bag sticking out of my mailbox by the road I grabbed it and tried to make out what was written on it but it was so dirty and worn all I could see was a portrait of Santa Clause staring back at me It was a Christmas Card One I'd never gotten from eleven years ago As I read it tears streamed down my face Noah asked me to marry him and he'd been waiting for me to respond to the card because he'd been on a mission I never got the card so I'd never responded All these years I thought he'd never tried to contact me and his parents had never said a word So I did what any woman would do today I sent him a Facebook message telling him how I only just received his card today almost eleven years after it had been sent Now I wait The Return of Geopolitics and Imperial Conflict Francesco M. Bongiovanni, 2024-07-01 After the brief respite that followed the fall of the USSR geopolitics and major wars are back affecting everyone everywhere In a world transitioning to multipolarity Great Powers jostle for supremacy regional powers feel emboldened to act on their own ambitions supply chains are disrupted and instability becomes the norm America has an empire that it wants to keep Russia lost an empire that it wants to recover and China doesn't have an empire and wants one with India the wildcard But there is more to it than Great Power rivalry From Ukraine to the South China Sea from the Middle East to Central Asia from the Arctic to outer space Bongiovanni lays it bare in this fascinating journey across the geopolitics of our time with in the background de globalization the battle against the dollar and the new AI driven age **The Dynamics of Asian Economic Development** Hitoshi Hirakawa, Ferdinand C. Maquito, 2024-12-10 One feature of this book is the clarification of the development mechanism of Asia as a regional economy for over half a century based on an Asian Economy Within the Global Economy approach that goes beyond the single country analytical framework The development of emerging economies has caught the world's attention from the Newly Industrializing Countries or Newly Industrializing Economies of the 1980s to the BRICs entering this century General economics cannot clarify the internal mechanism of the changing of newly industrialized economies led by Asia This book clarifies such regional development structure by focusing on the direct investments of multinational firms and the importance of gradual changes of specific policies adopted by newly industrialized economies Moreover the book concretely deals with the US China trade war and China's Belt and Road Initiative BRI as a problem of Asian economies In so

doing the book not only perceives the structural change of the global economy as a structural change from a US centric global economy of the twentieth century to a China centric one but also focuses on the birthing of a new growth frontier in the world economy under a crisis brought about by a war for hegemony between the US and China The investment initiative through China s BRI has prompted the investment competition between Japan and the US which has made even stronger the possibility of giving birth to a new economic frontier in Afro Eurasia Another feature is the consideration of various issues that confront Asian countries in their search for economic development using the Philippines as a case study The analysis of the study points to the importance of a shared growth perspective which is based on an Asian development model and discusses the challenge of overcoming the issues of the economic development model within the region At the same time this book studies the significance and new issues as a region of the economy and overseas policies of attention drawer China
