

# SAP Webi - Quick Guide

## SAP Webi - Overview

Web Intelligence is part of SAP BusinessObjects product suite and is used for analytical and ad hoc reporting to meet an organization's business requirements. Web Intelligence is a Business Intelligence reporting tool for business users to analyze data in Data Warehouse. It assists business managers in the decision-making process for building future strategies.

Using Web Intelligence, business users can create basic, medium, and complex reports from transactional data in database and by creating Universes using Information Design Tool/UDT. Various SAP and non-SAP data sources can be used to create reports in Web Intelligence. SAP Business Warehouse (BW) system doesn't require a Universe to connect to Web Intelligence tool.

Web Intelligence tool can work as a client tool of BusinessObjects platform and also as a standalone tool for reporting.

### Versions and History

BusinessObjects was first started in 1990 with the tool name Skipper SQL 2.x, and in the year 1994 Business Objects v3.0 was launched.

In 2005, BO XI was released and later on various other versions introduced. Some of the versions are –

- BO XI R1
- BO XI R2
- BO XI R3
- BO XI R3.1
- BO XI R3.2

In 2007, SAP acquired this company for \$6.8 billion and the product has been renamed as **SAP BusinessObjects**.

Later in the year 2011, BO XI 4.0 was introduced. The latest version of the tool is SAP BO 4.2.

### Web Intelligence Architecture

# Webi User Guide

**Cindi Howson**

## Webi User Guide:

Crystal Reports XI Official Guide Neil FitzGerald, et al., 2006-11-01 The authorized guide to the latest edition of the 1 business intelligence software product Crystal Reports More than 16 million licenses of Crystal Reports have been shipped to date This book is a reference designed to provide hands on guidance for the latest release of the product suite The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees Brand new features e g Dynamic and Cascading Parameter Generation will also appeal to new audiences Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform as this is the first release of the software with the existing Business Objects BO products being integrated into the Crystal infrastructure As Business Objects insiders the authors bring unique and valuable real world perspectives on implementations and uses of the Crystal Reports product The book also includes content tutorials and samples for reporting within the Microsoft Visual Studio NET and J2EE development environments and also on top of the SAP Business Information Warehouse BW and the Peoplesoft platform Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI is also now included in this definitive user guide with coverage on the new Web Services SDK **Beginners Guide to OpenOffice. Org 3. 0** Robert

Wingate, 2008-12-29 This book is targeted to individuals and small businesses who want to learn OpenOffice org Save a bundle of money and learn how to obtain and use a first class FREE office suite now *Mind Mapping and Artificial Intelligence* Jose Maria Guerrero, 2022-10-22 In the near future we will see an increase in the development and use of all sorts of AI applications Some of the more promising areas will be Finance Healthcare IoT Manufacturing Journalism and Cybersecurity Many of these applications generate a great amount of complex information Natural Language Understanding is one of the most clear examples Traditional ways of visualizing complex information namely linear text web pages and hyperlink based applications have serious productivity problems Users need a lot of time to visualize the information and have problems seeing the whole picture of the results Mind mapping is probably the only way of reducing the problems inherent in these traditional ways of visualizing complex information Most people have no clear idea about the advantages of mind mapping or the problems created by the traditional ways of visualizing complex information The goal of Mind Mapping and Artificial Intelligence is to provide readers with an introduction to mind mapping and artificial intelligence to the problems of using traditional ways of visualizing complex information and as an introduction to mind mapping automation and its integration into Artificial Intelligence applications such as NLU and others As more applications of Artificial Intelligence are developed in the near future the need for the improvement of the visualization of the information generated will increase exponentially Information overload will soon also happen in AI applications This will diminish the advantages of using AI Author Jos Maria Guerrero is a long time expert in mind mapping and visualization techniques In this book he also

introduces readers to MindManager mind mapping software which can considerably reduce the problems associated with the interpretation of complex information generated by Artificial Intelligence software Provides coverage of the fundamentals of mind mapping and visualization applied to Artificial Intelligence applications Includes coverage of the scientific bases for mind mapping for the visualization of complex information Introduces MindManager software for mind mapping Introduces the author s MindManager toolkit for the readers to use in development of new mind mapping applications Includes case studies and real world applications of MindManager for AI applications including examples using IBM Watson NLU

**Assessing Competencies for Social and Emotional Learning** Jeremy Burrus, Samuel H. Rikoon, Meghan W. Brennenman, 2022-07-12 Assessing Competencies for Social and Emotional Learning explores the conceptualization development and application of assessments of competencies and contextual factors related to social and emotional learning SEL As programs designed to teach students social and emotional competencies are being adopted at an ever increasing rate new measurements are needed to understand their impact on student attitudes behaviors and academic performance This book integrates standards of fairness reliability and validity and lessons learned from personality and attitude assessment to facilitate the principled development and use of SEL assessments Education professionals assessment developers and researchers will be better prepared to systematically develop and evaluate measures of social and emotional competencies
