**Teaching Multicultural Children's Literature in a Diverse Society** AnnMarie Alberton Gunn, Susan, V. Bennett, 2023-03-28 This textbook is a comprehensive resource for teaching multicultural children's literature. Providing

foundational information on how and why to integrate diverse children's literature into the classroom, this book presents a necessary historical perspective on cultural groups in the United States and context for how to teach children's literature in a way that reflects and sustains students' rich cultural backgrounds. The historical insights and context on diverse cultural groups at the heart of the book allow readers to deepen their understanding of why teaching about cultural diversity is necessary for effective and inclusive education. Part I offers foundational information on how to teach children's literature in a diverse society and Part II overviews pedagogy resources and guidance for teaching specific culturally and linguistically marginalized groups. Each chapter contains book recommendations, discussion questions, and additional resources for teachers. With authentic strategies and crucial background knowledge embedded in each chapter, this text is essential reading for pre-service and in-service teachers and is ideal for courses in children's literature, literacy methods instruction, and multicultural education.

Hatfield, 1996      **Students Financial Aid and Major Choice Among Undergraduates** Eileen Howell Zito, 1991      **Access, Choice & Equity** Sharon Ann Elliott, 1978      **Looking Ahead from Behind** Council for Financial Aid to Education, 1955      **College Choices** Caroline M. Hoxby, 2007-11-01 Aspiring college students and their families have many options. A student can attend an in-state or an out-of-state school, a public or private college, a two-year community college program, or a four-year university program. Students can attend full-time and have a bachelor of arts degree by the age of twenty-three, or mix college and work, progressing toward a degree more slowly. To make matters more complicated, the array of financial aid available is more complex than ever. Students and their families must weigh federal grants, state merit scholarships, college tax credits, and college savings accounts just to name a few. In "College Choices," Caroline Hoxby and a distinguished group of economists show how students and their families really make college decisions, how they respond to financial aid options, how peer relationships figure in the decision-making process, and even whether they need mentoring to get through the admissions process. Students of all sorts are considered, from poor students who may struggle with applications and whether to continue on to college to high-aptitude students who are offered free rides at elite schools. "College Choices" utilizes the best methods and latest data to analyze the college decision-making process while explaining how changes in aid and admissions practices inform those decisions as well.
