Netflix Last 90 Days:

Food TV Tasha Oren, 2023-04-11 This book serves up an accessible critical introduction to food television providing readers with a solid foundation for understanding how culinary culture became pop culture via the medium of television. The book follows FoodTV's journey from purely instructional resource to a wide variety of formats from celebrity chef and restaurant profiles to culinary travel and every manner of cooking competition from kids to cannabis. Tasha Oren traces the generic expansion of cooking on television as she argues for its development as a uniquely apt lens through which to observe and understand television's own dramatic extension from network to cable to streaming platforms. She demonstrates how FoodTV became popular commercial television through its growth beyond instruction response to industrial and cultural change and a decisive turn away from an association with domesticity or femininity. The story of FoodTV offers a new understanding of how certain material, stylistic and textual practices that make up television emerge as conventions and how such conventions both endure and evolve. This book is an ideal guide for students and scholars of media studies, television studies, food studies and cultural studies.

Issues in Global Business SAGE Publishing, 2021-03-03 In 2020 COVID 19 starkly demonstrated the global interconnectedness of business as it disrupted supply chains and manufacturing operations broadly shuttered retail stores and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business be it from the unexpected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy and the U.S. China trade war also caused concern. All of these events may have largely and immediately impacted one region yet effects reverberate across larger swathes of the globe ultimately affecting vast areas, industries and sectors across the international landscape. Issues in Global Business explores all of these and more across a wide range of topics including the on-demand economy, global manufacturing, Bitcoin, data security and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.
