*Multimodal Composition* Shyam B. Pandey, Santosh Khadka, 2021-09-30 This collection explores the role of individual faculty initiatives and institutional faculty development programs in supporting programmatic adoption of multimodal composition across diverse institutional contexts. The volume speaks to the growing interest in multimodal composition in university classrooms as the digital media and technology landscape has evolved to showcase the power and value of employing multiple modes in educational contexts. Drawing on case studies from a range of institutions the book is divided into four parts each addressing the needs of different stakeholders including scholars, instructors, department chairs, curriculum designers, administrators, and program directors. Faculty initiatives, curricular design, and pedagogies, faculty development programs, and writing across disciplines. Taken together the 16 chapters make the case for an integrated approach bringing together insights from unique faculty initiatives with institutional faculty development programs in order to effectively execute support and expand programmatic adoption of multimodal composition. This book will be of interest to scholars in multimodal composition, rhetoric, communication studies, education, technology, media studies, and instructional design as well as administrators supporting program design and faculty development.
