grantee and his or her institution organization The reader is provided with strategies and techniques to create strong teams build productive consortia and match grantseeking tasks to group member skills This is particularly relevant now given grantors growing interest in funding interdisciplinary and multiple site projects and research that uses grant monies more efficiently Those readers that teach or coach grantseeking will also find strategies in the book that are essential to creating success for others in the grants process As the hunt for grants gets more competitive and hectic the need for a system that uses time effectively and provides organizational techniques and other strategies for increasing grants success rates is critical The step by step process presented in the book plus the free downloadable worksheets make the purchase of this book a very cost effective investment *Reports Great Britain.
