anterior es pertinente e incluso necesario que la academia reflexione sobre el papel que jugó la tecnología digital y qué oportunidades existen ahora para incorporarla de manera eficiente en la vida cotidiana pero también cómo se pueden diseñar nuevas normalidades en la educación en los negocios en las relaciones humanas o en el cuidado de los grupos en situación de vulnerabilidad por ejemplo El libro Tecnología y contingencias reúne veintitrés textos que abordan de manera oportuna y en varios casos de manera desafiante los principales problemas que varios grupos de personas tuvieron en la contingencia sanitaria y qué hicieron para resolverlos Asimismo esta compilación de textos hace patente que si bien la pandemia por COVID 19 nos quitó varias cosas también nos impulsó a ser creativos y espontáneos Por ejemplo en la sección uno del libro conformado por nueve artículos se pone el acento en los problemas que la contingencia sanitaria le impuso a la educación formal Destaca sin embargo el hecho que aún no hemos sido capaces de diseñar planes de continuidad educativa para anticipar futuras contingencias cuando ya es necesario idear una reincorporación a las aulas de manera gradual segura y voluntaria Esta sección también expone que los problemas educativos durante la pandemia son muy semejantes en la región latinoamericana y honestamente no parecen ser problemas nuevos sino un recrudecimiento de las desigualdades educativas crónicas La segunda sección del libro en cambio pone el acento en cómo fueron transformadas las relaciones humanas y su efecto en la enseñanza y la tutoría Si bien el fenómeno educativo es complejo y generalmente atiende más el proceso de aprendizaje la situación laboral y vital de quienes enseñan o fortalecen el proceso de enseñanza fue crucial durante la contingencia sanitaria En los seis artículos que conforman esta segunda sección del libro es fácil reconocer que las personas responsables de enseñar tienen aún muchos problemas por resolver cuando se trata de incorporar la tecnología digital en la educación educativa Como se ha dicho anteriormente en este prólogo la contingencia sanitaria por COVID 19 obligó a los comerciantes a las autoridades a las familias etc tener que realizar cambios profundos en varios ámbitos de la vida cotidiana Si bien algunos de esos cambios son prometedores hubo otros poco afortunados Por ejemplo los índices de violencia doméstica aumentaron y una vez más afectaron más a las mujeres La carga de trabajo para ellas se duplicó y no hubo un justo reconocimiento al respecto Los grupos en situación de vulnerabilidad vieron subrayada su condición Pero simultáneamente diversas voces tuvieron la inimitable oportunidad de reflexionar sumidas profunda e inevitablemente en una contingencia sobre el papel que las aplicaciones digitales han tenido y pueden tener para anticiparnos a otros tipos de contingencias Estimada lectora estimado lector quienes hemos coordinado la edición y publicación de este libro estamos convencidos que hace falta incorporar la noción de contingencia en varios ámbitos académicos Sin embargo también creemos que la mejor opinión al respecto es la suya Ponemos a su disposición el libro Tecnología y contingencias con el único objetivo de que no dejemos de reflexionar sobre esta peculiar relación que presenta varios problemas pero al mismo tiempo en el núcleo duro de la contingencia presenta sus soluciones
