**A Situated Theory of Agreement (RLE Linguistics B: Grammar)** Michael Barlow, 2014-01-10 Typical cases of agreement are easy to identify but where the boundaries of agreement lie depend on what aspects of the agreement relation are considered to be defining properties It is a short step from viewing agreement in the traditional way as a matching of features to defining agreement as any relation that ensures consistency of information in two separate structures This book takes as its topic agreement as it is traditionally conceived one that only involves morphosyntactic categories

**New Deal Cowboy** Michael Duchemin, 2016-09-22 Best known to Americans as the singing cowboy beloved entertainer Gene Autry 1907 1998 appeared in countless films radio broadcasts television shows and other venues While Autry's name and a few of his hit songs are still widely known today his commitment to political causes and public diplomacy deserves greater appreciation In this innovative examination of Autry's influence on public opinion Michael Duchemin explores the various platforms this cowboy crooner used to support important causes notably Franklin D Roosevelt's New Deal and foreign policy initiatives leading up to World War II As a prolific performer of western folk songs and country western music Autry gained popularity in the 1930s by developing a persona that appealed to rural small town and newly urban fans It was during this same time Duchemin explains that Autry threw his support behind the thirty second president of the United States Drawing on a wealth of primary sources Duchemin demonstrates how Autry popularized Roosevelt's New Deal policies and made them more attractive to the American public In turn the president used the emerging motion picture industry as an instrument of public diplomacy to enhance his policy agendas which Autry's films backed by Republic Pictures unabashedly endorsed As the United States inched toward entry into World War II the president's focus shifted toward foreign policy Autry responded by promoting Americanism war preparedness and friendly relations with Latin America As a result Duchemin argues Sergeant Gene Autry played a unique role in making FDR's internationalist

policies more palatable for American citizens reluctant to engage in another foreign war New Deal Cowboy enhances our understanding of Gene Autry as a western folk hero who during critical times of economic recovery and international crisis readily assumed the role of public diplomat skillfully using his talents to persuade a marginalized populace to embrace a nationalist agenda By drawing connections between western popular culture and American political history the book also offers valuable insight concerning the development of leisure and western tourism the information industry public diplomacy and foreign policy in twentieth century America     Authorship and Copyright David Saunders,2023-02-28 First published in 1992 Authorship and Copyright traces the history of constructions of authorship as a legal reality It offers an alternative to the two mainstream interpretations that have traditionally been assigned to authorship the Romantic dialectical birth of the author or the language based post structuralist death of the author Saunders examines the shortcomings of both schemes by arguing that they impose an arbitrary philosophical direction on the history of authorship and the law of copyright Saunders addresses the issues relating to copyright and the construction of authorship as a legal status Combining information and polemic the author explores such matters as the historical and theoretical relations of copyright and the droit moral the aestheticization of the law and the juridification of aesthetics and the argument that authorship as a legal reality is a historically contingent and variable arrangement that cannot be separated from its cultural and juridical context This book will be of interest to students of law literature and philosophy     **Location Register of English Literary Manuscripts and Letters** David C. **The Athenaeum** ,1898     International Agreements between Non-State Actors as a Source of International Law Melissa Loja,2022-09-22 This book examines whether international agreements between non state actors can be identified as a source of international law using objective criteria It asks whether beyond Article 38 of the Statute of the International Court of Justice there is a system of rules processes beliefs or semantics by which these agreements can be objectively identified as a source of international law Departing from the more usual state centric analysis it adopts postmodern legal positivism as its analytical tool This allows for the reality that international law making takes place in subjective social landscapes To test the effectiveness of this approach it is applied to agreements between petroleum agencies and corporations which allow two or more states to exploit disputed resources across boundaries looking in particular at arrangements involving China Vietnam and the Philippines By so doing it illustrates an alternative way that states can manage disputes without having to resort to conflict It will appeal to both scholars and practitioners of public international
