The Swastika Malcolm Quinn,2005-07-26 Despite the enormous amount of material about Nazism there has been no substantial work on its emblem the swastika This original contribution examines the popular appeal of the archaic image of the swastika the tradition of the symbol The Swastika Outside Germany Donald M. McKale,1977 The swastika Sanskrit M 5 8 M is an equilateral cross with four arms bent at 90 degrees The earliest archaeological evidence of swastika shaped ornaments dates back to the Indus Valley Civilization Ancient India as well as Classical Antiquity Swastikas have also been used in various other ancient civilizations around the world It remains widely used in Indian religions specifically in Hinduism Buddhism and Jainism primarily as a tantric symbol to evoke shakti or the sacred symbol of auspiciousness The word swastika comes from the Sanskrit svastika su meaning good or auspicious asti meaning to be and ka as a suffix The swastika literally means to be good Or another translation can be made swa is higher self asti meaning being and ka as a suffix so the translation can be interpreted as being with higher self In East Asia the swastika is a Chinese character defined by Kangxi Dictionary published in 1716 as synonym of myriad used mostly in Buddhist classic texts by extension the word later evolved to represent eternity and Buddhism The symbol has a long history in Europe reaching back to antiquity In modern times following a brief surge of popularity as a good luck symbol in Western culture a swastika was adopted as a symbol of the Nazi Party of Germany in 1920 who used the swastika as a symbol of the Aryan race After Adolf Hitler came to power in 1933 a right facing 45 rotated swastika was incorporated into the Nazi party flag which was made the state flag of Germany during Nazism Hence the swastika has become strongly associated with Nazism and related ideologies such as fascism and white supremacism in the Western world and is now largely stigmatized there due to the changed connotations of the symbol Notably it has been outlawed in Germany and other countries if used as a symbol of Nazism in certain instances Many modern political extremists and Neo Nazi groups such as the Russian National Unity use stylized swastikas or similar symbols Wikipedia The Swastika, the Earliest Known Symbol, and Its Migrations Thomas Wilson,2013-08-09 Hardcover reprint of the original 1896 edition beautifully bound in brown cloth covers featuring titles stamped in gold 8vo 6x9 No adjustments have been made to the original text giving readers the full antiquarian experience For quality purposes all text and images are printed as black and white This item is printed on demand Book Information Wilson Thomas The Swastika The Earliest Known Symbol And Its Migrations With Observations On The Migration Of Certain Industries In Prehistoric Times Indiana Repressed Publishing LLC 2012 Original Publishing Wilson Thomas The Swastika The Earliest Known Symbol And Its Migrations With Observations On The Migration Of Certain Industries In Prehistoric Times Washington D C 1896 Subject Swastikas **The Swastika** William Norman Brown,1933 **The Swastika** Wilson Thomas 1832-1902,2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches

transgresses one of the oldest and soundest rules of scientific nomenclature and ignores the fact that the name Swastika has been employed for this sign in the Sanskrit language the etymology of the word naturally gave it the name Svastika sv good or well asti to be or being or it is and that two thousand and more years of use in Asia and Europe had sanctioned and sanctified that as its name This character has continued into modern times and while the Swastika is recognized as a holy and sacred symbol by at least one Buddhistic religious sect it is still used by the common people of India China and Japan as a sign of long life good wishes and good fortune Max Ohnefalsch Richter speaking of the Swastika position either of crossed legs or arms among the Hindus suggests as a possible explanation that these women bore the Swastikas upon theirPg 773 arms as did the goddess Aphrodite in fig 8 of his writings see fig 180 in the present paper and when they assumed the position of arms crossed over their breast the Swastikas being brought into prominent view possibly gave the name to the position as being a representative of the sign
