Understanding Islam An Introduction:

Understanding Islam Thomas W. Lippman, 1982 A guide to the teachings history and practices of Islam and its influence on current world affairs **Understanding Islam** Thomas W. Lippman, 1995-09-01 A little over thirteen centuries ago the prophet Muhammad converted a few Arab desert tribes to the belief in a single god Allah thus founding the religion of Islam. Within a century that belief had created one of history's mightiest empires and today Islam continues to shape events around the globe. This comprehensive guide offers an informative and insightful introduction to Islam both as a religion and as a political economic force. It tells the story of Muhammad and the rise of Islam, outlines the sacred book the Koran, explains the five pillars of faith, explores the interplay between religion and government, describes the differences that divide Islam and above all shows the influence of Islam on world affairs. This second revised edition provides crucial new material on the Islamic community today including discussion of the Gulf War and the Salman Rushdie affair, the rise and ebb of fundamentalist fervor in Iran, Algeria and elsewhere, and the relationships among different factions of the Islamic faith. There are also updated descriptions of internal politics in Syria, Egypt, Pakistan and other Islamic nations. Complete with glossary, bibliography and index. Understanding Islam is engrossing essential reading for both students and all who seek a clearer understanding of the world in which we live.

Understanding Islam C. T. R. Hewer, 2006 The faith of a billion Muslims today developed over fourteen centuries is sympathetically and skillfully presented in this marvelous introduction. Hewer's extensive knowledge and contextually sensitive presentation yield an exceptionally rich and faithful account presupposing no prior knowledge of the traditions without orientalist Western or Christian biases. Includes diagrams, glossary and easy to follow references to the Qur'an. **Understanding Islam** Thomas W. Lippman, 2002 **Understanding Islam** Thomas W. Lippman, 1982-03-01 **Understanding Islam** Thomas W. Lippman, 2002 **Understanding Islam** Thomas W. Lippman, 1995-09-01 Recounts the story of Muhammad and the rise of Islam, briefly surveys the Koran and explains the five pillars of Islam.

Understanding Islam and Muslim Traditions Tanya Gulevich, 2004 An introduction to the religious practices, celebrations, festivals, observances, beliefs, folklore, customs and calendar system of the world's Muslim communities, including an overview of Islamic history and geography. **Islam** James A. Beverley, 2011-04-18 An essential and succinct introduction to the culture, history and practices of the world's second largest religion. Next to Christianity, Islam is the largest religion in the world. One out of every six people in the world is Muslim. Like Christianity, it's monotheistic, belief in one God; it has a holy text and an ethical or religious law. Like Christians, Muslims are devoted to religious activities like prayer and fasting. And yet many Christians feel at a loss to understand this neighboring system of faith. Professor James A. Beverley provides answers to questions many Christians have about Islam in this short and readable book. Islam clearly lays out responses to topics such as: What Muslims think about God, the world and their place in it; How Muhammad established a religion that now stretches around the world; How different groups within Islam define Jihad; Why Palestine is important to

Muslims What roles women play in different Islamic communities And how Christians should relate to Muslims Features include Glossary of terms related to Islam A list of Frequently Asked Questions for easy reference Topical bibliography for further study **TOWARDS UNDERSTANDING ISLAM** Mevdudi,1995 Towards Understanding Islam is one of Mawlana Mawdudi's most popular books The Urdu original written in 1932 was intended as a first introduction to Islam for students and laymen and soon became a popular reader Over a million copies have so far appeared in many of the world's languages including Arabic English Persian German French Italian Portuguese Japanese Swahili Turkish Indonesian Bengali Hindi Albanian Bosnian and Georgian Towards Understanding Islam is a religious text with a difference It offers a simple exposition of the essential teachings of Islam its approach to life the articles of its faith its scheme of worship and prayers and the social order which it envisages Its methodology is steeped in the Quran Towards Understanding Islam is one of those books which have changed the lives of many and set them along the Islamic path [Understanding Islam.
