Linguistic Knowledge and Language Use Benoît Leclercq, 2023-11-02 One of the key challenges in linguistics is to account for the link between linguistic knowledge and our use of language in a way that is both descriptively accurate and cognitively plausible This pioneering book addresses these challenges by combining insights from Construction Grammar and Relevance Theory two influential approaches which until now have been considered incompatible After a clear and detailed presentation of both theories the author demonstrates that their integration is possible and explains why this integration is necessary in order to understand exactly how meaning comes about A new theoretical model is offered that provides ground breaking insights into the semantics pragmatic interface and addresses a variety of topics including the nature of lexical and grammatical concepts procedural meaning coercion and idiom processing This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Multi-verb constructions in Eastern Indonesia Volker Unterladstetter, 2020 Constructions with multiple verbal elements have posed a long standing challenge to linguistic analysis Most studies of verb serialisation have been confined to single languages rather than looking at crosslinguistic patterns This book provides the first in depth account into the areal characteristics of multi verb constructions MVCs in Eastern Indonesia By collating published data as well as corpus data from 32 Austronesian and Papuan languages the study traces commonalities as well as differences in MVC use across the area Analysis takes place on two levels first the morpho syntactic behaviour of MVCs is taken into account As this plane of analysis arguably does not provide any meaningful insights into why MVCs are construed and used the way they are a semantic account of MVCs is presented One of the main hypotheses advanced in this book is that the crucial driving force behind multi verb construals is semantic interaction between the verbs leading to four principal

techniques of event formation merging staging modification and free juxtaposition The study aims at showing that while all four techniques are to varying degrees in use in Eastern Indonesian languages the morpho syntactic output does not necessarily mirror these underlying differences in event conception Applying insights from Davidsonian event semantics as well as from predicate decomposition the book provides a model of event interaction that helps to explain differences in MVC behaviour such as issues in constituent order or operator assignment **Weimar** Arthur Jacobson, Bernhard

Schlink, 2001-01-06 This selection of the major works of constitutional theory during the Weimar period reflects the reactions of legal scholars to a state in permanent crisis a society in which all bets were off Yet the Weimar Republic's brief experiment in constitutionalism laid the groundwork for the postwar Federal Republic and today its lessons can be of use to states throughout the world Weimar legal theory is a key to understanding the experience of nations turning from traditional religious or command and control forms of legitimation to the rule of law Only two of these authors Hans Kelsen and Carl Schmitt have been published to any extent in English but they and the others whose writings are translated here played key roles in the political and constitutional struggles of the Weimar Republic Critical introductions to all the theorists and commentaries on their works have been provided by experts from Austria Canada Germany and the United States In their general introduction the editors place the Weimar debate in the context of the history and politics of the Weimar Republic and the struggle for constitutionalism in Germany This critical scrutiny of the Weimar jurisprudence of crisis offers an invaluable overview of the perils and promise of constitutional development in states that lack an entrenched tradition of constitutionalism **Concrete-steel Construction ...** Henry Turner Eddy, Claude Allen Porter Turner, 1914 This antiquarian
