Weapons Of Warre The Armaments Of The Mary Rose:

Weapons of Warre Alexzandra Hildred, 2011 Providing a complete overview of the ordnance and munitions of the Mary Rose *Weapons of Warre* Dominic Fontana, 2011 **Bosworth 1485** Glenn Foard, Anne Curry, 2013-08-22 Bosworth stands alongside Naseby and Hastings as one of the three most iconic battles ever fought on English soil The action on 22 August 1485 brought to an end the dynastic struggle known as the Wars of the Roses and heralded the dawn of the Tudor dynasty However Bosworth was also the most famous lost battlefield in England Between 2005 and 2010 the techniques of battlefield archaeology were used in a major research programme to locate the site Bosworth 1485 a battlefield rediscovered is the result Using data from historical documents landscape archaeology metal detecting survey ballistics and scientific analysis the volume explores each aspect of the investigation from the size of the armies their weaponry and the battlefield terrain to exciting new evidence of the early use of artillery in order to identify where and how the fighting took place Bosworth 1485 provides a fascinating and intricately researched new perspective on the event which perhaps more than any other marked the transition between medieval and early modern England *Sveti Pavao Shipwreck* Carlo Beltrame, Sauro Gelichi, Igor Miholjek, 2014-07-31 Between 2007 and 2012 the Department for Underwater Archaeology of the Croatian Conservation Institute from Zagreb and the Department of Humanistic Studies of the Ca Foscari University of Venice collaborated in the recording underwater excavation and analysis of the unusually well preserved wreck of a 16th century Venetian merchantman in the Sveti Pavao shallow off the southern shore of the island of Mljet Croatia The shipwreck preserved many personal possessions of the crew as well as a number of bronze artillery pieces and the remains of a cargo of luxury and richly decorated ceramic material from Iznik and other oriental workshops Although the excavation is not complete this volume presents the results of the project so far The methodological and technical aspects of the underwater investigation of the site mainly by photogrammetry are described the historical and archaeological context of navigation in the late Medieval period in the eastern Mediterranean discussed and the recovered artefacts described and catalogued in detail together with the remains of the ship and its equipment that because of depth and of problems of conservation have been left in situ The conservation and restoration of the finds are described in an appendix **The Medieval Crossbow** Stuart Ellis-Gorman, 2022-07-20 An in depth illustrated history and technical study of this iconic weapon of the Middle Ages The crossbow is an iconic weapon of the Middle Ages and alongside the longbow one of the most effective ranged weapons of the pre gunpowder era Unfortunately despite its general fame it has been decades since an in depth history of the medieval crossbow has been published which is why Stuart Ellis Gorman's detailed accessible and highly illustrated study is so valuable The Medieval Crossbow approaches the history of the crossbow from two directions The first is a technical study of the design and construction of the medieval crossbow the many different kinds of crossbows used during the Middle Ages and finally a

consideration of the relationship between crossbows and art The second half of the book explores the history of the crossbow from its origins in ancient China to its decline in sixteenth century Europe Along the way it explores the challenges in deciphering the crossbow s early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author s own original research to create an account of the medieval crossbow that will appeal to anyone looking to gain an insight into one of the most important weapons of the Middle Ages
