Web Portals Web Portals:

Web Portals Arthur Tatnall, 2005-01-01 A Web portal is a special web site designed to act as a gateway giving convenient access to other related sites This book investigates the various types of portals and describes how they can be used in business applications After considering the nature of portals the book describes the first general portals like Yahoo and how they came into being Portals are used in businesses of all types and sizes and this book discusses how portals can be used in large business corporations as well as small to medium enterprises Web portals have increasing importance to marketers as by their nature they retain their users who must return to them frequently They also provide a useful means of making information and knowledge readily available in a convenient form to authorised users This book covers a wide range of issues relating to the use of portals in business Encyclopedia of Portal Technologies and Applications Tatnall, Arthur, 2007-04-30

Informatique Designing Portals: Opportunities and Challenges Jafari, Ali, Sheehan, Mark, 2002-07-01 Portals present unique strategic challenges in the academic environment Their conceptualization and design requires the input of campus constituents who seldom interact and whose interests are often opposite The implementation of a portal requires a coordination of applications and databases controlled by different campus units at a level that may never before have been attempted at the institution Building a portal is as much about constructing intra campus bridges as it is about user interfaces and content Designing Portals Opportunities and Challenges discusses the current status of portals in higher education by providing insight into the role portals play in an institution's business and educational strategy by taking the reader through the processes of conceptualization design and implementation of the portals in different stages of development at major universities and by offering insight from three producers of portal software systems in use at institutions of higher learning and elsewhere Web Technologies: Concepts, Methodologies, Tools, and Applications

Tatnall, Arthur, 2009-10-31 With the technological advancement of mobile devices social networking and electronic services Web technologies continues to play an ever growing part of the global way of life incorporated into cultural economical and organizational levels Web Technologies Concepts Methodologies Tools and Applications 4 Volume provides a comprehensive depiction of current and future trends in support of the evolution of Web information systems Web applications and the Internet Through coverage of the latest models concepts and architectures this multiple volume reference supplies audiences with an authoritative source of information and direction for the further development of the Internet and Web based phenomena *International Journal of Web Portals, Vol 4 Iss3* Maria Manuela Cruz-Cunha, João Eduardo Varajão, 2013-02-01

International Journal of Web Portals (Ijwp) Polgar, 2011 **Web Portal Design, Implementation, Integration, and Optimization** Polgar, Jana, Adamson, Greg, 2013-01-31 Web Portal Design Implementation Integration and Optimization discusses the challenges faced in building web services and integrating applications in order to reach the successful benefits web portals bring to an organization This collection of research aims to be a resource for researchers developers and

industry practitioners involved in the technological business organizational and social dimensions of web portals

A Methodology for the Development of Secure Vertical Web Portals Peter A. Wu, 2002-12-01 In this thesis we investigate the development of vertical web portals portals that fulfill targeted organizational mission needs This specific type of portal provides narrow scoped data information and services while affording the user accessibility over a public network such as the Internet As part of the investigation we present a methodology for architecting such portals with explicit consideration of security policy The methodology along with some preliminary guidelines is intended to serve as a first approximation of a framework for both the development of vertical portals and the definition of doctrine on the application of portals We illustrate this methodology with an application to a Navy ship

Creating Web Portals with BEA WebLogic Rob Castle, Howard Block, David Hritz, 2003-03-05 Covering award winning software this is the first start to finish guide to developing a portal application with WebLogic that includes proven strategies and advanced techniques

Successful Web Portals in Retail Banking Daniel Singer, Douglas Ross, Albert Avery, 2001-05-02 Today's competitive eCommerce environment requires banks to maintain a strong Web presence along with user friendly web portals for their customers and clients Successful Web Portals in Retail Banking walks you through the entire process of creating an effective portal from executing a proven framework to implementing advanced features for empowering portal users

The Hidden Curriculum of Web Portals Robert Andrew Luke, 2005 The World Wide Web WWW is an important site of and for learning but it is necessary to deconstruct the kinds of learning the Web encourages Web portals are a common entry point to the online world Portals have gained in popularity in recent years as their general utility as sites of reference has led to their commercial and educational use As the term portal implies these sites are intended to serve as launching points from which users may enter the World Wide Web Web portal users log on with a username and password then customize or personalize the datastructure that will be presented to them As key sites of informal learning about and with technology portals may influence how habits of technology use are encouraged and conditioned as people learn to use portals in their everyday lives This thesis examines several types of web portals and theorizes the informal learning commensurate with a public pedagogy of popular culture

Web Portals and Higher Education Richard N. Katz, 2002-01-31 As distance education distributed learning virtual campuses and digital libraries become more important for students academic institutions can no longer rely on traditional methods to survive and prosper In this landmark collection of essays seven highly respected institutional association and financial leaders examine

the challenges facing today's colleges and universities. They explore a number of critical issues including how to deal with for-profit competition, how to build a powerful technological infrastructure, how to create administrative structures that reward and support technological innovation, and how to secure funding for such transformations. **Journal de la Societe Royale**
