Good Practices in Addressing Illegal Betting: A Handbook for Horse Racing and Other Sports to Uphold Integrity The Asian Racing Federation Council on Anti-illegal Betting and Related Financial Crime, The Handbook written by the Asian Racing Federation Council on Anti illegal Betting and Related Financial Crime aims to 1 highlight the risks to the integrity of racing and other sports from illegal betting related sports corruption and 2 provide practical guidance to administrators and other key stakeholders to mitigate against and combat such corruption It has been written by the Council members a group of experts from horse racing and sports integrity management law enforcement sports law and international government relations The Asian Racing Federation is a regional federation comprising 28 racing authorities and racing related organisations with a wide geographic spread from New Zealand to South Africa Among its core objectives is the promotion of integrity in the sport of horse racing The Asian Racing Federation Anti Illegal Betting Taskforce was established in 2017 and now comprises 14 members from organisations engaged in horse racing and sports integrity law enforcement the UNODC and academia In October 2020 the task force was renamed as the Asian Racing Federation Council on Anti illegal Betting Related Financial Crime whose purpose is to foster and enhance international cooperation among horse racing operators regulators intergovernmental organisations and government agencies in order to better combat the threat of illegal betting and other financial crimes to horse racing integrity in particular and sport in general Match-Fixing in Sport Stacey Steele, Hayden Opie, 2017-11-20 Match fixing represents a greater potential threat to the integrity of sport than doping It has been linked to organised crime illegal drugs and money laundering Law enforcement and sporting authorities are struggling to establish legal and regulatory responses to this emerging threat particularly in light of cross border internet gambling This book examines match fixing and the legal responses to it in three key Asian sporting nations Australia Japan and Korea It explores the significance of legal regulatory and cultural differences and draws lessons in terms of best practice and enforcement for legal and sporting authorities around the world Including key insights from players the betting industry law enforcement and prosecution authorities it discusses the strengths and weakness of current anti corruption strategies in the three jurisdictions Match Fixing in Sport Comparative Studies from Australia Japan Korea and Beyond offers important insights for all students and scholars with an interest in sport studies law criminology and Asian studies Major Companies of Asia and Australasia Graham & Whiteside, Limited, Manly, Inc, 2007-12 V 1 South Asia v 2 East Asia v 3 Australasia v 4 South Asia **International Gaming & Wagering Business**, 2007 Legal Aspects of Privatisation Bulent Seven, 2002 The main aims of this thesis are as follows a To present a comprehensive analysis of the concept of privatisation its origins and limits b To identify the legal and institutional framework for privatisation in different European countries from a comparative perspective c To define and analyse particularly legal issues which arise during the privatisation transactions e g labour law competition law etc d To evaluate which features of the successful legal and

organisational framework of privatisation have been successful so as to provide guidelines for those individuals and organisations participating in the privatisation exercises This work found out that there is no simple internationally applicable recipe for privatisation various legal methods and techniques can be used to privatise state owned enterprises Because each country has different circumstances it is impossible to provide a unique model for privatisation each country needs to design its own model according to its circumstances Privatisation is an essential but insufficient element for structural economic reform in the economy and society Privatisation is not a panacea it is not the solution to every economic and administrative problem selling an enterprise to the private sector does not mean an end to all problems Also privatisation is not an overnight process or a magic touch it will be a lengthy process Furthermore a decision that something can be privatised does not mean that it should be privatised In that context privatisation is not good or bad it is an economic and social instrument If it is well designed it may bring substantial benefits to the economy and society In many countries many state owned enterprises particularly the ones which are financially weak have still not been privatised This finding revealed that the privatisation process will be in the political and economic agenda for at least few more decades
