**Under Castro's Eyes** Colin Clarke,2018-07-16 This book provides a first hand account of the author's encounters as a social geographer based on his field research and travels in Mexico and the Caribbean. The interlocutors of different classes and races introduce the reader to a variety of urban and rural communities many of them involved in development projects. Two leitmotifs of the 1960s and 1970s recur throughout the volume: decolonization, state formation and the quest for democracy in the post-colonial societies of Mexico and the Caribbean and the conditions which were likely to constrain or challenge these developments quintessentially associated with the 1959 Cuban revolution, the cold war and student radicalism
