## **What Terrorists Want Understanding The Enemy Containing The Threat:**

**What Terrorists Want** Louise Richardson, 2006 What can terrorists possibly hope to achieve by blowing up commuters bond traders and tourists whom they have never even met Why do seemingly ordinary young men and women volunteer to turn themselves into human bombs What can we do to stop them In **What Terrorists Want** Louise Richardson investigates these crucial questions She delves into the minds of terrorists and demystifies the threat we face today She draws on her unique contact with real terrorists as well as years of teaching and research at Harvard to show that terrorists are not crazed criminals but rational people willing to exploit their own weaknesses to maximum effect By introducing us to other terrorists in other times she shows that we must look beyond 9 11 and simplistic associations with Islam **What Terrorists Want** controversially but convincingly argues that only by understanding the forces that drive terrorism can we hope to contain it It also shows us why the Global War on Terror is doomed to fail but how with a different strategy we can prevail

**Homegrown Violent Extremism** Erroll Southers, 2014-09-25 In the country's changing threat environment homegrown violent extremism HVE represents the next challenge in counterterrorism Security and public policy expert Erroll Southers examines post 9 11 HVE what it is the conditions enabling its existence and the community based approaches that can reduce the risk of homegrown terrorism Drawing on scholarly insight and more than three decades on the front lines of America's security efforts Southers challenges the misplaced counterterrorism focus on foreign individuals and communities As Southers shows there is no true profile of a terrorist The book challenges how Americans think about terrorism recruitment and the homegrown threat It contains essential information for communities security practitioners and policymakers on how violent extremists exploit vulnerabilities in their communities and offers approaches to put security theory into practice

Thomas Koruth Samuel,2012      **Marching Toward Hell** Michael Scheuer,2008-02-12 One of the worlds leading authorities on counterterrorism and the New York Times bestselling author of Imperial Hubris offers a scathing indictment of the U S Iraqi War policy and its long term consequences for American security      **The Tabloid Terrorist** Alexander Spencer,2010-04-14 Alexander Spencer successfully establishes constructivist terrorism research as nothing less than an alternative to traditional and critical terrorism studies Professor Christopher Daase Chair for international Organisations Goethe University Frankfurt Germany      Small Boats, Weak States, Dirty Money Martin N. Murphy,2009 Many believe that pirates and other water bound terrorists present a significant threat to international maritime security Testing the validity of this claim Martin N Murphy scrutinizes recent incidents of maritime terrorism and locates the commonalities between pirates and maritime terrorists that enable them to commit their extensive crimes Murphy s research opens up surprising sites of contact between pirates and wider criminal networks organizations that pursue their corrupt agendas not only on sea but also on land It is these relationships Murphy argues that bring about the destabilization of states and regions in which piracy occurs Murphy s most significant revelation is the way in which maritime criminality may disguise insurgent and terrorist activity allowing such actors greater freedom to maneuver Although these acts currently rank as a low level threat piracy feeds off of political upheaval Before they can evolve into a truly powerful and dangerous force however maritime terrorists and insurgents will have to overcome significant operational and technical issues They must also capture the attention of an international audience by committing atrocities at sea that are as devastating as those committed on land
