When China Ruled The Seas The Treasure Fleet Of:

When China Ruled the Seas Louise Levathes,2014-12-02 One hundred years before Columbus and his fellow Europeans began their voyages of discovery fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains lacquerware and silk ventured to the world's four corners Seven epic expeditions brought China's treasure ships across the China Seas and Indian Ocean from Japan to the spice island of Indonesia and the Malabar Coast of India on to the rich ports of the Persian Gulf and down the East African coast to China's El Dorado and perhaps even to Australia three hundred years before Captain Cook's landing It was a time of exploration and expansion but it ended in a retrenchment so complete that less than a century later it was a crime to go to sea in a multimasted ship In When China Ruled the Seas Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China's enigmatic history focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority Drawing on eyewitness accounts official Ming histories and African Arab and Indian sources many translated for the first time Levathes brings readers inside China's most illustrious scientific and technological era She sheds new light on the historical and cultural context in which this great civilization thrived as well as the perception of China by other contemporary cultures Beautifully illustrated and engagingly written When China Ruled the Seas is the fullest picture yet of the early Ming dynasty the last flowering of Chinese culture before the Manchu invasion

When China Ruled the Seas

Louise Levathes,1996 **Leaders** General Stanley McChrystal,Jeff Eggers,Jay Mangone,2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of Team of Teams profiles thirteen of history's great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch's Lives as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake Martin Luther King Jr both local clergymen emerged from modest

backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you're part of a small team or responsible for an entire nation

Migration and the Making of Global Christianity Jehu J. Hanciles, 2021-03-16

A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world's largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles's socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries Migration and the Making of Global Christianity instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world
