But that isn't what this book is about. This book answers the question: Why would you run with Power? Written by an England Athletics certified coach who's been using power since 2018, it explores what running with power is, what's different about power, and the benefits why you should use it. Running with Power is based on decades of research and practice, packaged as a set of powerful models and metrics that can be used to guide your training and racing more effectively than Heart Rate or Pace. All of which leads to the question: Why wouldn't you run with Power?
