5 is the latest Smartwatch in the Apple lineup. It offers several unique features to make the users more active and better monitor their health among several other great features for humanity. This high end Smartwatch could be useful for business users including improved travel notifications and call capabilities. The Apple Watch looks pretty attractive right? People have told you all about the cool features like if you fall or are in danger it would automatically call for help on your behalf. They've told you about how you can send a text from your wrist, how you can make a phone call and many more. As amazing as all the new features are, it's not quite as easy to use as an iPhone. The lack of buttons, the smaller screen and general UI can make a frustrating initial experience. It looks nothing like the iPhone or iPad interface you are used to except for a handful of icons.

**Apple Watch Series 5** Philip Knoll, 2019-09-16 Updated version with new chapters. Thank for your comments and reviews. We offer you a new revised updated version with new chapters.
