Wargaming Campaigns Henry Hyde, 2022-07-20 An authoritative reference guide to building wargaming campaigns featuring a full set of campaign rules, tips on creating maps, and more. Most miniature wargames take the form of simulating a single battle with the opponents either winning or losing, and that's that until the next game. Such games can be a fun test of tactical skill, but it can be even more rewarding if they form part of a wider campaign. In a campaign, the players commanding the forces have to make the decisions at the strategic level that determine the context of any battles that occur. The outcome of these battles will in turn have strategic consequences for the ongoing campaign. Although campaigns can be very rewarding, many wargamers are deterred by the need to produce maps and devise mechanisms for strategic movement, intelligence, logistics, recruiting reinforcements, keeping track of casualties, etc. Henry Hyde's excellent book greatly eases this task with masses of sound advice, concrete suggestions, and even a full set of campaign rules useful for any period. Whatever historical or fantasy setting you prefer, Henry shows that even simple campaigns can add extra fun to your gaming. Praise for Wargaming Campaigns: This big, thick tome contains everything you'd ever want to know about creating and running a wargame campaign. Historical Miniatures Gaming Society
