Academic Language Literacy Marjorie C. Ringler, 2015-06-09 Marjorie C. Ringler describes a professional development framework to teach principals and teachers the value of Academic Language Literacy (ALL) as the key to academic success. context and process to effective professional development This book addresses educators who are looking for a research based approach to improving academic success for students who come to school language deficient and deficient in the background knowledge necessary for success in school An innovative approach to improving instruction illustrates that all teachers are language teachers if the language being taught is that of their content Practical examples are included for instructional leaders to use when planning implementing and evaluating professional development Teachers also get practical examples for integrating academic language literacy in all content areas Strategies include both teaching and learning methods that promote academic language awareness and student centered approaches
