W. A. T. Training Manual** Shaolin Abrams,2018-01-10 There s a great war being waged in the world today and it s not a conflict between nations tribes or government leaders It s not a rebellion or coup but it s an important invisible battle taking place in the spirit world The Bible states that GOD s people are destroyed because of lack of knowledge Hosea 4 6 One of the main areas in which Believers are being defeated due to lack of knowledge is in spiritual warfare The early Church viewed their spiritual experience in terms of warfare and military terminology is used throughout the New Testament Protection was seen in the Armor of GOD and the Word of GOD was compared to a sword Satan s attacks were called fiery darts and faith was the good fight and Believers were told to war a good warfare The early Church knew they were engaged in an intense spiritual struggle and the same spiritual battle continues today but instead of fighting the enemy Believers are often building great church buildings producing musical dramas holding fellowship meetings and fighting one another while this great spiritual battle wages around them Satan has even intensified his attacks against a church that has withdrawn from the front lines of battle and in these perilous and evil days are upon us it s even more important for Believers to understand spiritual warfare than in the early days of church history The Apostle Paul warned 2 Timothy 3 1 This know also that in the last days perilous times shall come In order to be properly prepared for these perilous times renewed emphasis must be placed on the strategies of spiritual warfare because the Christian life is war and the sooner we recognize and prepare for it the sooner we will experience victory Luke 14 31 says What king going to make war against another king sitteth not down first and consulteth whether he is able with ten thousand to meet him that cometh against him with twenty thousand No king ever entered into a battle without a careful examination of his resources and development of battle strategies but in essence that s what we are doing in this training manual We are making a careful evaluation of the strategy weapons and power available to us to win the war against our enemy Satan In the military world strategy is the science of forming and carrying out military operations and it is the method or plan which leads to the goal of victory *SWAT Spiritual Warfare Apostolic Training Manual* Curry Blake,2019-01-27 **Hostage Rescue Manual** Leroy Thompson,2005-01-08 A comprehensive illustrated overview of the dynamic operations that have saved lives in hostage situations around the world Based on strategies proven

successful in numerous incidents including the landmark SAS rescue at Prince's Gate London and compiled by an author with intimate and practical knowledge of the field this book explains why the success of a rescue is often determined in the hours leading up to confrontation Once an incident is contained a large share of the responsibility for a successful conclusion rests with the hostage negotiator whose job is to save the lives of both hostage and hostage taker But if negotiations fail it becomes necessary to send in the hostage rescue team to resolve the situation by force and skill Hostage Rescue Manual explains the complex factors that determine the entry methods undertaken by a team with discussion of the pros and cons of stealth versus dynamic approaches plus the significance of distraction in securing successful site entry Operations in widely differing locations from nuclear power plants to airliners are detailed as are the range of special weapons available to the men and women tackling each incident We learn of the multiple roles played by participants such as the use of snipers as intelligence sources With vivid photographs and diagrams of rescue units in action Hostage Rescue Manual is the complete reference work on counter terrorist procedures all over the world This revised edition updates the book with an entirely new section devoted to developments in hostage rescue among them operations in Russia and Iraq since first publication

*TRAINING THE SWAT TRAINER* Tomas C. Mijares, Marcus L. Wall, 2012-04-01 Few areas in American law enforcement are characterized by the frequency quality and magnitude of innovations as the advances found in tactical operations To introduce new equipment and methods during an actual operation without adequate instruction assessment preparation and practice not only invites failure but also subjects an entire organizational chain of command to preventable criticism and avoidable litigation The purpose of this manual is to introduce police instructional personnel to the legal administrative and safety issues associated with this very critical area of police training Its purpose is not to create a cookbook approach to tactical training or even develop a better instructional cadre but rather to present the guidelines to mitigate litigation both at the individual and organizational levels through a proactive approach to the occasional criticism directed toward police tactical training Major topics include the SWAT instructor establishing learning goals and objectives and writing lesson plans engaging the student presenting the material training aids and facilities the need for continuous training and evaluation documentation adhering to standards of the profession and special considerations of training in defense tactics The book's recurring theme is the warning that any technique tactic or new technology taught by an instructor must be applied in a manner that is consistent with existing organizational policy state and federal legislation and relevant case law Substantial legal and operational guidelines are provided that are needed by tactical leaders to develop and improve their leadership skills and tactical success Additionally the appendices contain a wealth of information regarding state law enforcement regulatory agencies national regional and state tactical officer associations sample lesson plans including evaluation drills instructor evaluation questionnaire and curriculum evaluation
