Switch Como Cambiar Las Cosas Cuando Cambiar Es Difícil:

Switch: Cómo Cambiar Las Cosas Cuando El Cambio Es Difícil / Switch: How to Change Things When Change Is Hard Chip Heath, Dan Heath, 2024-11-05 Por qué es tan difícil lograr cambios duraderos en nuestros trabajos, nuestras comunidades y nuestras propias vidas. El obstáculo principal es un conflicto intrínseco en el cerebro, nos dicen Chip y Dan Heath, dos reconocidos especialistas en comportamiento organizacional. Los psicólogos han descubierto que la mente está gobernada por dos sistemas diferentes: la mente racional y la mente emocional que compiten por el control. La mente racional quiere un cuerpo perfecto, la mente emocional quiere comerse esa galleta. La mente racional quiere cambiar el trabajo, la mente emocional ama la comodidad y la rutina. Esta tensión puede causar que muchos esfuerzos por cambiar fracasen, pero si se superan, el cambio puede llegar rápidamente. En *Switch*, los hermanos Heath muestran cómo personas comunes y corrientes han unido estas dos mentes logrando espectaculares resultados. La directiva que ayudó a Target a pasar de ser una compañía minorista regional que facturaba tres billones de dólares a convertirse en un gigante de más de 63 billones de dólares. La directora de servicios clínicos que junto con su equipo de enfermeras logró reducir drásticamente los errores en la administración de medicamentos en su hospital. El director de atención al cliente que transformó su compañía de una que ignoraba totalmente el servicio al cliente a ser una compañía definida por él. En este convincente relato, los Heath reúnen décadas de investigación en los campos de la psicología, la sociología y los negocios entre muchos otros para explicar por qué cambiar es tan difícil y dar a conocer nuevas maneras de lograr cambios duraderos. *Switch* muestra que los cambios exitosos siguen un modelo, un modelo que puedes utilizar para lograr los cambios que quieras, tanto si tu interés se centra en cambiar el mundo como en cambiar tu cintura.

ENGLISH DESCRIPTION Why is it so hard to make lasting changes in our companies, in our communities and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems: the rational mind and the emotional mind that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort, but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people—employees and managers, parents and nurses—have united both minds and, as a result, achieved dramatic results. The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients. The home organizing guru who developed a simple technique for overcoming the dread of housekeeping. The manager who transformed a lackadaisical customer support team into service zealots by removing a standard tool of customer service. In a compelling story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology and other fields to shed new light on how we can effect transformative change. *Switch* shows that successful changes follow a pattern—a pattern you can use to make the changes that matter to you.
