Understanding Jacques Ellul:

Understanding Jacques Ellul Jeffrey P. Greenman, Read Mercer Schuchardt, Noah J. Toly, 2012-12-12 Jacques Ellul 1912-1994 was one of the world's last great polymaths and one of the most important Christian thinkers of his time engaging the world with a simplicity, sincerity, courage, and passion that few have matched. However, Ellul is an often misunderstood thinker. As more than fifty books and over one thousand articles bear his name, embarking on a study of Ellul's thought can be daunting. This book provides an introduction to Ellul's life and work, analyzing and assessing his thought across the most important themes of his scholarship. Readers will see that his remarkably broad field of vision, clarity of focus, and boldly prophetic voice make his work worth reading and considering, rereading, and discussing. *Jacques Ellul* Jacob E. Van Vleet, Jacob Marques Rollison, 2020-04-13 Jacques Ellul 1912-1994 was Professor of the History and Sociology of Institutions at the University of Bordeaux. A sociologist, historian, and Protestant lay theologian, Ellul is primarily known for his writings on technology, propaganda, and Christian anarchism. He influenced a wide array of thinkers including Ivan Illich, William Stringfellow, Thomas Merton, Paul Virilio, and Neil Postman. In this book, Jacob Van Vleet and Jacob Marques Rollison guide readers through Ellul's most influential theological and sociological writings. By understanding Ellul's primary works, readers will be able to clearly grasp his social theory and theological ethics, profiting from his deep insight and prophetic wisdom.

Sources and Trajectories Jacques Ellul, 1997 This is a print-on-demand book and is therefore non-returnable. This book is composed of eight articles written by Ellul and not previously translated into English. The eight were chosen not necessarily for their clarity or power to convince but because they are the earliest formulations of some of Ellul's key ideas.

Perspectives on Our Age Jacques Ellul, 1981 Originally broadcast on CBC Radio's Ideas as a series of interviews, Ellul's first-person approach here makes his ideas accessible to readers looking for new ways of understanding our society. *Perspectives on Our Age* also gives unique new insight into Ellul's life, his work, and the origins and development of his beliefs and theories. *Jacques Ellul and the Bible* Jacob Marques Rollison, 2020-10-13 This striking collection of scholarly essays highlights the hermeneutic contribution of the French theologian and sociologist Jacques Ellul, revealing him to be one of the twentieth century's most creative and insightful readers of the Bible. With a breadth of contributors ranging from established biblical scholars and theologians to pastoral practitioners, from top Ellul scholars to emerging voices, and including six first-time English translations of Ellul's own articles, this volume not only provides a detailed overview of Ellul's biblical approach but also constitutes a crucial moment in Ellul's theological reception. This book counts as a clear demonstration that the full potential of Ellul's theological interpretation of Scripture to rejuvenate and reconfigure contemporary biblical hermeneutics has yet to be seen. With contributions from Jerome Ellul, Brian Brock, Patrick Troude, Chastenet Amy, Erickson, Chris Friesen, David Gill, Andrew Goddard, John Goldingay, Jean Sebastien Ingrand, Declan Kelly, Ted Lewis, Michael Morelli, Anthony J. Petrotta, Elisabetta Ribet, Frederic Rognon, Christian Roy. **Confronting Technology** Matthew T. Prior, 2020-03-16 We are

living through a digital revolution which already touches every area of life and will continue to shape the future in as yet unforeseen ways Digital technologies are an ordinary part of daily life and yet they also present an unprecedented challenge to Christians to articulate a biblical theological framework to navigate times of rapid change The work of the French theologian Jacques Ellul is a theological time bomb primed for times like these Accounts of Ellul s career often divide off his sociology and theology but this book argues that Ellul conceived a single project of bringing technology into confrontation with the Word of God tackling the phenomenon he named technique the pursuit of maximal power and efficiency implicit in the technological enterprise with a profound depth of biblical and ethical insight Centering himself on the apocalypse or revelation of Jesus Christ in history Ellul offers a monumental timely though far from flawless contribution to contemporary ethical debates about the uses and abuses of technologies His work blazes a trail that Christians and all concerned for the future would do well to follow as we avoid both the naivety of technological neutrality and the dread of technological determinism

Rodkey, Jordan E. Miller, 2018-10-10 The Palgrave Handbook of Radical Theology is the definitive guide to radical theology and the commencement for new directions in that field For the first time radical theology is addressed and assessed in a single comprehensive volume including introductory and historical essays for the beginner essays on major figures and their thought and shorter articles on various themes concepts and related topics This book is a seminal work for the radical theology movement It clarifies origins and demonstrates the exigency and utility of current figures and issues A useful and essential guide for newcomers and veterans in the field this volume serves as both a reference work and an introduction to omitted or forgotten topics within contemporary discussions

Kierkegaard and the Question Concerning Technology Christopher B. Barnett, 2019-08-22 Over the last several decades technology has emerged as an important area of interest for both philosophers and theologians Yet despite his status as one of modernity's seminal thinkers Søren Kierkegaard is not often seen as one who contributed to the field Kierkegaard and the Question Concerning Technology argues otherwise Christopher B. Barnett shows that many of Kierkegaard's criticisms of the present age relate to the increasing dominance of technology in the West and he puts Kierkegaard's thought in conversation with subsequent thinkers who grappled with technological issues from Martin Heidegger to Thomas Merton Barnett shows that Kierkegaard's writing with its marked emphases on personal upbuilding stands as a place where deeper non-technical modes of thinking are both commended and nurtured In doing so Barnett presents a Kierkegaard who remains relevant perhaps all too relevant in today's digital age **On Freedom, Love, and Power** Jacques Ellul, 2015-01-01 One of the most important and original thinkers of the twentieth century Jacques Ellul 1912-1994 was a noted sociologist historian

law professor and self described Christian anarchist At the University of Bordeaux Ellul taught and wrote extensively on the relationship between technology and contemporary culture the tenets of the Christian faith and the principles of human freedom and responsibility *On Freedom Love and Power* is the transcription of a series of talks given by Ellul in 1974 in which he refines and clarifies some of his most controversial insights on the Jewish and Christian Bibles and their relevance to contemporary society This expanded edition of Ellul s talks features additional material previously unavailable that focuses on Christianity s potential service to humanity as a community that exemplifies a society where people are reconciled with one another and with God *Eschatology and the Technological Future* Michael S. Burdett, 2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul Burdett s argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard J ngel and J rgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future

Interpretive essays Clifford G. Christians, Jay M. Van Hook, 1981 **Political Theory of the Digital Age** Mathias Risse, 2023-02-09 With the rise of far reaching technological innovation from artificial intelligence to Big Data human life is increasingly unfolding in digital lifeworlds While such developments have made unprecedented changes to the ways we live our political practices have failed to evolve at pace with these profound changes In this path breaking work Mathias Risse establishes a foundation for the philosophy of technology allowing us to investigate how the digital century might alter our most basic political practices and ideas Risse engages major concepts in political philosophy and extends them to account for problems that arise in digital lifeworlds including AI and democracy synthetic media and surveillance capitalism and how AI might alter our thinking about the meaning of life Proactive and profound *Political Theory of the Digital Age* offers a systemic way of evaluating the effect of AI allowing us to anticipate and understand how technological developments impact our political lives before it s too late *The Humiliation of the Word* Jacques Ellul, 2021-10-14 Western people no longer hear everything is grasped by sight They no longer speak they show Jacques Ellul Well known for his many books on sociology and theology Jacques Ellul creatively braids these two strands together in this provocative examination of how reality which is

visual has superseded truth which is verbal in modern times Ellul explores biblical texts for distinguishing visual cultural forms from the communicative divine and human Word then examines how this distinction plays out with the rise of audiovisual media in the 20th century West Even in human speech visual forms dominate contemporary life and devalue the word this insight informs discussion of the image word clash in religion politics and art After a scathing critique of present day idolatry Ellul places his hope for nonviolent community in the fragile spoken word Ultimately Ellul sees the Bible as presenting a hopeful vision of reconciliation between visual reality and spoken truth A new afterword by Jacob Marques Rollison contextualizes Ellul s stance within French postmodern thought illuminating Humiliation of the Word as an outspokenly Protestant communication ethic in contemporary philosophical and theological discussions of language

Revelation and Reason in Christian Theology Christopher C. Green, David I. Starling, 2018-07-11 Do revelation and reason contradict Throughout the church s history Christians have been tempted to make revelation and reason mutually exclusive But both are essential to a true understanding of the faith The inaugural Theology Connect conference held in Sydney in July 2016 was dedicated to surveying the intersection of revelation and reason In Revelation and Reason in Christian Theology Christopher C Green and David I Starling draw together the fruit of this conference to provoke sustained deep reflection on this relationship The essays filtered through epistemological biblical historical and dogmatic lenses critically and constructively contribute to this important and developing aspect of theology Each essayist approaches revelation and reason according to the psalmist s words In your light we see light Ps 36 9 The light of faith does not obscure truth rather it enables us to see truth [Perspectives on Our Age](#) Jacques Ellul, 1997-03-01 Originally broadcast on CBC Radio s Ideas as a series of interviews Jacques Ellul s first person approach here makes his ideas accessible to readers looking for new ways of understanding our society and also gives unique new insight into Ellul s life his work and the origins and development of his beliefs and theories Jacques Ellul historian theologian and sociologist was one of the foremost and widely known contemporary critics of modern technological society
