## **When The Sun Darkens:**

*When the Sun Darkens* Jason M. Breshears, 2009-07 Numerous times throughout Earth's history there have been major cataclysmic events Many books exist on this subject but few have broken new ground like this one due to the extensive research involved

**God And His Coexistent Relations To The Universe:** George D. Shollenberger, 2014 The author says that the social contract theory of John Locke the immortal souls of humans and doubts of the divinity of Jesus by Ben Franklin Thomas Jefferson and John Adams caused the separation of the U S colonists from England on July 4 1776 However the author says that the USA has lost its God and has no facts about the universe in which we live He also says that Locke's social contract theory and the immortal souls of humans were never installed by Congress And he says that the doubts of the divinity of Jesus were never verified In his new book the author opens his widely respected mind to find answers to the above unknowns In his studies of the immortal souls the author concludes that all nations must become equal so that the immortal souls of every Little God can be reborn naturally by God His study provides answers of all doubts about the divinity of Jesus and says that only one active God exists and governs the immortal souls and the universe forever In time only one religion will exist

**Reshaping the World** Ana Díaz, 2020-04-01 Reshaping the World is a nuanced exploration of the plurality complexity and adaptability of Precolumbian and colonial era Mesoamerican cosmological models and the ways in which anthropologists and historians have used colonial and indigenous texts to understand these models in the past Since the early twentieth century it has been popularly accepted that the Precolumbian Mesoamerican cosmological model comprised nine fixed layers of underworld and thirteen fixed layers of heavens This layered model which bears a close structural resemblance to a number of Eurasian cosmological models derived in large part from scholars' reliance on colonial texts such as the post Spanish Conquest Codex Vaticanus A and Florentine Codex By reanalyzing and recontextualizing both indigenous and colonial texts and imagery in nine case studies examining Maya Zapotec Nahuatl and Huichol cultures the contributors discuss and challenge the commonly accepted notion that the cosmos

was a static structure of superimposed levels unrelated to and unaffected by historical events and human actions. Instead, Mesoamerican cosmology consisted of a multitude of cosmographic repertoires that operated simultaneously as a result of historical circumstances and regional variations. These spaces were and are dynamic elements shaped, defined, and redefined throughout the course of human history. Indigenous cosmographies could be subdivided and organized in complex and diverse arrangements as components in a dynamic interplay which cannot be adequately understood if the cosmological discourse is reduced to a superposition of nine and thirteen levels. Unlike previous studies which focus on the reconstruction of a pan Mesoamerican cosmological model, *Reshaping the World* shows how the movement of people, ideas, and objects in New Spain and neighboring regions produced a deep reconfiguration of Prehispanic cosmological and social structures, enriching them with new conceptions of space and time. The volume exposes the reciprocal influences of Mesoamerican and European theologies during the colonial era, offering expansive new ways of understanding Mesoamerican models of the cosmos. **The Zohar** Daniel Chanan Matt, 2004. This third volume of The Zohar Pritzker Edition completes the Zohar's commentary on the book of Genesis. Here we find spiritual explorations of numerous biblical narratives including Jacob's wrestling with the angel, Joseph's kidnapping by his brothers, his near seduction by Potiphar's wife, his interpretation of Pharaoh's dreams, and his reunion with his brothers and father. Throughout the Zohar probes the biblical text and seeks deeper meaning, for example, the divine intention behind Joseph's disappearance or the profound significance of human sexuality. Divine and human realities intertwine, affecting one another. Toward the end of Genesis, the Bible states Jacob's days drew near to die, an idiomatic expression that the Zohar insists on reading hyperliterally. Each human being is challenged to live his days virtuously. If he does, those days themselves are woven into a garment of splendor at death; they draw near, enveloping him, escorting him to the beyond. *Sefer ha Zohar*. The Book of Radiance has amazed and overwhelmed readers ever since it emerged mysteriously in medieval Spain toward the end of the thirteenth century. Written in a unique Aramaic, this masterpiece of Kabbalah exceeds the dimensions of a normal book; it is virtually a body of literature comprising over twenty discrete sections. The bulk of the Zohar consists of a running commentary on the Torah from Genesis through Deuteronomy.
