*The Reinvention of Populist Rhetoric in The Digital Age* Mark Rolfe, 2016-11-23 This highly original work considers the rhetoric of political actors and commentators who identify digital media as the means to a new era of politics and democracy Placing this rhetoric in a historical and intellectual context it provides a compelling explanation of the reinvention and thematic recurrence of democratic discourse The author investigates the populist sources of rhetoric used by digital politics enthusiasts as outsiders inaugurating new eras of democracy with digital media such as Barack Obama and Julian Assange and explores the generations of rhetorical and political history behind them The book places their rhetoric in the context of the permanent tensions between insiders and outsiders between the political class and the populace which are inherent to representative democracy Through a theoretical and conceptual research that is historically grounded and comparative it offers rhetorical analysis of candidates for the 2016 presidential election and discusses digital democracy

particularly discussing their origins in American populism and their influence on other countries through Americanization. Uniquely it offers a sceptical assessment of epochal claims and a historical rhetorical account of two of the defining figures of twentieth century politics to date and reveals how modern rhetoric is grounded in an older form of anti politics and mobilises tropes that are as old as representative democracy itself. Nyamnjoh, 2022-01-01 This is a study of how Donald J Trump his populist credentials notwithstanding borrows without acknowledgment and stubbornly refuses to come to terms with his indebtedness. Taken together with mobility and conviviality the principle of incompleteness enables us to distinguish between inclusionary and exclusionary forms of populism and when it is fuelled by ambitions of superiority and zero sum games of conquest Nyamnjoh challenges the reader to reflect on how stifling frameworks of citizenship and belonging predicated upon hierarchies of humanity and mobility and driven by a burning but elusive quest for completeness can be constructively transcended by humility and conviviality inspired by taking incompleteness seriously. Nyamnjoh argues that the logic and practice of incompleteness is a healthy antidote to name calling and scapegoating others as undesirable outsiders depending on the brand of populism at play. Recognising incompleteness also helps to question sterile and problematic binaries such as those between elites and the impoverished masses among whom populists go to fish for political visibility prominence and success. **The Belt and Road**
