The Guru Papers:

The Guru Papers Joel Kramer, Diana Alstad, 2012-06-19 One of the most comprehensive erudite and timely explorations of power dynamics and authoritarianism in religions institutions relationships and even personal struggles San Francisco Chronicle Book Review Authoritarian control which once held societies together is now at the core of personal social and planetary problems and thus a key factor in social disintegration Authoritarianism is embedded in the way people think hiding in culture values daily life and in the very morality people try to live by In The Guru Papers authors Joel Kramer and Diana Alstad unmask authoritarianism in areas such as relationships cults 12 step groups religion and contemporary morality Chapters on addiction and love show the insidious nature of authoritarian values and ideologies in the most intimate corners of life offering new frameworks for understanding why people get addicted and why intimacy is laden with conflict By exposing the inner authoritarian that people use to control themselves and others the authors show why people give up their power and how others get and maintain it

Spiritual Abuse: A Sufi's Perspective Anab Whitehouse, 2018-11-06 No religious or mystical tradition is immune from the presence of spiritual abuse for wherever there are people who are seeking to become closer to essential truths purpose and meaning there will be individuals seeking to generate counterfeit currency to offer to those who are unaware or incautious toward the dangers which lie in wait along the spiritual path Fraudulent teachers might call themselves a guru shaykh rimpoché monk priest imam apostle avatar or minister They might also call themselves educators revolutionaries political leaders and freedom fighters Whatever they might call themselves if they seek to gain control over others through techniques of undue influence then they are propagators of spiritual abuse This book is relevant to individuals from all spiritual traditions but often focuses on the Sufi spiritual tradition

Fundamentalist Phenomenology Anab Whitehouse, 2018-11-06 Three issues of paramount importance namely fundamentalism spiritual abuse and terrorism are brought together in one volume in a way that delineates the interconnected dynamics of these topics Moreover these central themes are engaged from a variety of perspectives ranging from on the one hand psychology sociology and philosophy to on the other hand history political science and religion The author draws upon more than forty five years of experience on the Sufi path to lend a unique perspective to the manner in which terrorism fundamentalism and spiritual abuse are explored and analyzed throughout the book

Leading the Hare Krishna Movement Angela R. Burt, 2024-05-27 This book examines issues of leadership and succession in the International Society for Krishna Consciousness ISKCON which was founded in by A C Bhaktivedanta Swami Prabhupada in 1966 After the founder's death in 1977 the movement was led by a group of gurus in a zonal system

until their authority was challenged and reformed in the mid 1980s At the heart of the book is an exploration of the developments conflicts and defining characteristics of leadership in ISKCON in this decade Themes of hierarchy status power and authority and the routinisation of charisma are shown to be keys to understanding the events of the time With careful analysis of interviews and documentary evidence the research offers a unique insight into ISKCON as an organisation and the broader religious community in which ISKCON is located The book will be of particular interest to scholars of new religious movements and those concerned with religious leadership

Sources of Control Anab Whitehouse,2018-11-06 The word leadership is and has been for some time a buzz word which is espoused by many to be the key to solving most if not all of the problems in the world If only there were the right sort of leaders in the world that is the right kind of control then the political economic educational business scientific environmental military judicial and spiritual difficulties facing humankind could be resolved The desire for leadership is a pathological disorder that is engendered in others by those who already have succumbed to the malady Leadership is a delusional belief system in which a human being believes that he or she should be given or usurp the authority to organize and control the lives of other human beings Chaos is not the opposite of leadership The co operation of equals stands in opposition to the idea of leadership Every human being is sovereign and has an inalienable right to seek to push back the horizons of ignorance free from interference as long as such efforts are consonant with honoring a like right in relation to others Reconciling the boundaries of sovereignty among human beings is a dynamic complex and nuanced process a process that can only be successfully navigated by means of an exercise of co operation among sovereign individuals and not through the leadership of the few with respect to the many This book explores different aspects of the pathological character of leadership the root of control Once the underlying principles of the delusional disorder are appreciated an individual might be in a better position to realize the character of the pathology of leadership i e the desire to control others and resist its seductive Siren like wail
