The Healing Sun The Healing Sun:

The Healing Sun Richard Hobday, 2000-02-01 The human race evolved under the sun and for thousands of years lived in harmony with its heat and light Yet over the last fifty years we have lost this close contact with the sun and its healing powers We have become afraid of it However the sun is central to our well being and health Did you know that designing and building sunlit houses can help prevent disease make us feel happier and save energy sunlight can help prevent and heal many common and often fatal diseases like breast cancer heart disease multiple sclerosis and osteoporosis before antibiotics sunlight was used successfully to speed up the healing of wounds tanning moderately throughout the year is better than avoiding the sun altogether sudden bursts of strong solar radiation are unnatural and dangerous protection needs to be built up slowly early morning sunlight in cool temperatures is particularly beneficial to the body sunlit hospital rooms provide a better environment for the treatment of clinically depressed people prolonged exposure to artificial light puts the body under great stress large numbers of people may be compromising their health through sunlight deficiency there is a substantial body of historical and contemporary evidence that suggests moderate sunbathing is far more beneficial than we are currently led to believe The light and heat from the sun are indispensable to all nature Humanity is also part of nature and needs sunlight for health and well being for vitality and happiness This book explains how and why we should welcome sunlight back into our lives safely It shows how sunlight was used to prevent and cure diseases in the past and how it can heal us and help us in the future Richard Hobday MSc PhD is a member of the British Register of Complementary Practitioners and has studied traditional Chinese Medicine and Chinese exercise systems in China Dr Hobday has many years experience of solar design in buildings and is a leading authority on the history of sunlight therapy The Healing Sun: Sunlight And Health In The 21st C Richard Hobday, 2003 **The Healing Power of the Sun** Richard Hobday, 2021-12-07 Shares scientific research on sunlight therapy and tuberculosis as well as studies on sunlight with regard to osteoporosis diabetes multiple sclerosis tooth decay psoriasis heart disease and several forms of cancer Reveals how the sun can act as a natural disinfectant killing viruses and bacteria and how this wisdom was put into use by doctors Explains how sunlight affects eyesight sleep mental health and the immune system For thousands of years the human race lived in harmony with the sun and used its heat and light as medicine In recent history however with skin cancer on the rise we have become too focused on the negative effects of the sun Fortunately science has made new discoveries showing just how beneficial the sun truly is to our lives In this new edition of The Healing Sun Richard Hobday draws on historical and scientific evidence to explore the many ways that sunlight affects our health and well being He shows how the sun acts as a natural disinfectant killing viruses and bacteria outdoors as well as inside buildings The author highlights how sunlight therapy has been used to prevent and treat serious health problems like tuberculosis and other infections in the years before antibiotics were developed Explaining how doctors of the past realized that sunlight and fresh air helped patients recover he shows how this wisdom was put into use by doctors
