and pedagogy Giving faculty fellows the autonomy to build on their disciplinary expertise pursue their interests and predilections within a guided framework and leveraging interactions with colleagues through FLCs stimulated faculty fellows motivation and creativity This book describes the core and structure of the IMPACT program presents details of faculty learning curriculum explains how the focus on SDT principles shaped the program s evolution and transformation from a course redesign to a professional faculty development program and covers the considerations behind the formation of faculty fellow IMPACT teams A concluding chapter addresses how the IMPACT program having helped faculty pivot to emergency remote teaching when the campus closed owing to the COVID 19 pandemic is being modified so it can be successfully sustained online if circumstances require or as a means to expand its reach in the future While the principles behind this initiative will be of compelling interest to its primary audience of faculty developers several chapters will have appeal to instructors and administrators
