an unprecedented number of international successes Films ranging from Local Hero to The Last King of Scotland have not only raised the profile of film making north of Hadrian s Wall but have also raised a number of questions about the place of cinema originating from a small historically marginalised as yet stateless nation within national and transnational film cultures By providing detailed case studies of some of the biggest films of contemporary Scottish cinema including Local Hero Mrs Brown Morvern Callar and others this volume will help readers to understand the key works of the period as well as the industrial critical and cultural contexts surrounding their creation and reception As the field of Scottish film studies has also grown and developed during this period this volume will also introduce readers to the debates sparked by the key works discussed in the book *The Fictional Dimension of the School Shooting Discourse* Silke Braselmann, 2019-06-17

Ever since the 1990s school shootings have shocked the public in their brutality their suddenness and their inexplicability While film and literature have played a role in the heated debates about so called copycat crimes the growing body of fictionalizations of school shootings has been neglected thus far However in a discourse in which the boundaries between

fiction and reality are increasingly blurred this book shows how fiction shapes and structures challenges and disrupts cultural processes of meaning making Hence for a better understanding of the school shooting phenomenon the relevance of fiction on all levels of discourse construction requires thorough analysis This book therefore develops a new approach to the role of fiction for contemporary forms of excessive violence By combining narrative theory with insights from sociology and other disciplines it provides the means for apprehending and describing the relevance of fiction for contemporary discourses Furthermore it provides exemplary analyses of more specific functions of literary and filmic fictionalizations of school shootings between 2000 and 2016 Contemporary Authors New Revision Series ,2005 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers World Authors, 2000-2005 Jennifer Curry,2007 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author s principal works with date first published a list of major critical works and a portrait or photograph where available
