**Wealth, Poverty and Politics** Thomas Sowell, 2015 In *Wealth Poverty and Politics* Thomas Sowell one of the foremost conservative public intellectuals in this country argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography demography and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty Paul Krugman and others on the left Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. Transcending partisanship through a careful examination of data *Wealth Poverty and Politics* reveals the truth about the most explosive political issue of our time *Wealth, Poverty and Politics* Thomas

**Institutionalizing Division** Shawn Armstrong, 2025-12-09 Have we really overcome racism or have our institutions found a new way to keep us divided? In this provocative and meticulously argued book *Institutionalizing Division* traces how America moved from the colorblind ideal of the Civil Rights Movement to a culture obsessed with race guilt and group identity. Shawn Armstrong shows how Critical Race Theory and equity initiatives migrated from elite universities into K 12 classrooms corporate boardrooms and even music and arts education reshaping policy curriculum and everyday language along the way. From affirmative action and Supreme Court battles to racial affinity groups identity based hiring and DEI trainings that demand collective guilt Armstrong argues that a new racial orthodoxy has taken hold one that sorts children into oppressors and oppressed expands victim categories without limit and punishes anyone who dares to question the script. The result isn't justice or unity but hardened resentment academic decline and a generation taught to see fellow citizens as political abstractions instead of human beings. The Second Edition deepens the analysis with

expanded chapters on intersectionality parental pushback and the growing conflict between families and institutions that believe they not parents should shape children s beliefs about race sex and gender Institutionalizing Division offers not just a critique but an alternative a return to equal treatment under the law genuine intellectual rigor and a shared civic identity that refuses to reduce people to the color of their skin

**Inner-City Blues** Darvin Anton Adams,2023-04-13 Black theology

s addressing of economic poverty in the Black neighborhoods and communities of the United States gives substantive reasoning to the fact that Black poverty is a theological problem In connecting the narrative of idolatry to the irreversible harm that is associated with all forms of poverty this new book interlocks the racial subjugation of Black Americans with the false assumptions of capitalism Here the inner city blues of poverty are experienced by those who reside in metropolitan cities and rural towns The poverty of Black Americans is described with a vision of development and reconciliation one that is intentional in its use of cultural language and inclusive to the destructive images of Black people s deprivation In understanding how idolatry foundationalizes deprivation in the inner city communities I envision the liberation motif in Black theology working with the mission of the Black church for the purposes of community empowerment and neighborhood development As a form of material and structural poverty Black poverty is an interdisciplinary study that requires a holistic approach to ministry With a theological focus on deprived inner city communities this new volume strategically moves the conversation of Black poverty from description to construction to solution
