eliminate one of the cards There is one upjogged card left It is the selection This requires almost no sleight of hand and can be done as a platform or close up trick TrapJacksIf you ve been practicing the Riffle Pass for years with no particular purpose in mind this is the routine for you It does not require your pass to go totally unnoticed In fact it s the perfect way to get over the fear of ANY pass Steven hesitated to publish this because at first reading it will seem like just another Sandwich Trick but it s not He s used this particular item in different forms for over 15 years and it has a spectacular finish In fact he s done this at The Magic Castle for over 10 years My Name Is NobodyAn Ace cutting effect that has a presentation AND a finish Most Ace cutting effects lack a compelling presentation but you ll be relieved to know that you now have one This can be adapted to most other Ace cutting effects so even if you ve been practicing one for years waiting for a REAL presentation you ll be happy to know that you haven t wasted your time Reading The Tells and NumerAlphatologyTwo effects that demonstrate the idea of leverage They only require one sleight look impossible and can be adapted to your performing style and audience because you can play them in different ways Not only that they can be done as platform tricks OR close up With ONE sleight you get TWO effects that look totally different from the perspective of the audience Although the actual effect has been around and largely ignored for around 50 years the presentations transform it into two effects you ll USE for 50 years 1The spectator cuts the deck freely into four piles The top cards are taken from each pile and shown to be random You explain that only in the movies and dime novels do card cheats deal themselves a pat hand You then state that real cheats make sure they only beat the sucker by a small amount and thus avoid suspicion You then demonstrate what you mean by cutting to the card one value higher than each of the four random cards This effect comes with an alternative method which is guaranteed to fry both laymen AND magicians The Key CardThe most versatile key card in existence OK maybe there s some out there Steven doesn t know about It never fails it s easy to hide and it can be found instantly with a tabled riffle shuffle your thumb or your pinky In other words you don t have to go through any gyrations to find it You can gain control over it instantly using just the natural way you handle cards Additionally it s ambidextrous Elegant SolutionsAn essay that describes one of Steven s approaches to magic It teaches you not only how he thinks about presentations but also about leveraging things you already know into phenomenal magic It will not only save you hours and hours of time but will jump start your creative juices The people who have already read this have all told Steven that it is very thought provoking and it has changed the way some of them think about magic BONUS Ron Bauer s technique for The Convincing Control **The "War on Terror" Narrative** Adam Hodges,2011-04-15 The War on Terror Narrative provides a longitudinal and holistic study of the formation circulation and contestation of the Bush administration s narrative about the war on terror **From Submarines to Suburbs** Cynthia Lee Henthorn,2006 Using documentary evidence in the form of numerous advertisements of the time From Submarines to Suburbs is a fascinating analysis of the way corporations made the successful switch from supporting the war effort to building on the peacetime prosperity by re tooling the patriotic fervor of the home front *Weapons of mass deception*

Propaganda Blitz

David Edwards,David Cromwell,2018-09-20 Do you trust the liberal media While the tabloid and right wing press the Sun The Times the Mail and the Express are constantly criticised for dangerous bias outlets like the BBC and the Guardian are trusted by their readers to report in the interests of the public However the reality is that all corporate media is systematically filtered by the powerful interests that own manage and fund it Propaganda Blitz shows that the corporate media does not just spin the news it fundamentally distorts everything it touches hiding the real issues from public view and often completely reversing the truth This book uncovers a storm of top down campaigns behind war reporting from Iraq Syria and Palestine as well as the destruction of the credibility of figures on the left including Jeremy Corbyn and Hugo Chavez Exposing propagandists at the top levels of the BBC as well as their reporting on the Scottish independence referendum the dismantling of the NHS and looming climate chaos Propaganda Blitz explains the real meaning of objective journalism exposes the fake news about fake news and outlines a model for anti business media activism

Endless War?

David Keen,2006-04-20 Endless War casts a critical light on the real motives behind war and terror David Keen explores how winning war is rarely an end in itself rather war often provides cover for wider political and economic games in which strengthening the enemy is either irrelevant or positively useful Keen devises a radical framework for

analysing an unending war project where violence creates its own legitimacy and where the war on terror is only the latest extension of a Cold War project

There is broad consensus among U S intelligence agencies that Russia interfered in the 2016 presidential election continued its meddling in the 2018 Congressional elections and will attempt to do so again in the 2020 elections probably using ever more sophisticated techniques These recent Russian efforts reflect a long history of influence operations dating back to the 1917 Revolution and even earlier to statecraft under the Czars And while the Soviet Union may have collapsed nearly 30 years ago Russia believes it is at war with the United States and that the United States is at war with it even if the war is non kinetic There is however one striking difference today vis vis the Cold War era The partisan divide has deepened in Washington and across the nation to the point that almost every inquiry is viewed as either an opening to attack or a political threat to be crushed In this environment Russian adversaries take second place It is against this background that informal discussions about the pernicious effects of Russian meddling in U S domestic politics and society evolved into a day long meeting to discuss how best to identify understand and ultimately respond to Russian efforts to manipulate popular opinion in the United States erode faith in U S institutions influence U S elections and impact U S policy formation Most of the participants were veterans of the Cold War with long firsthand experience in this area They had served in the White House the State Department United States Information Agency USIA the Pentagon the Intelligence Community the FBI research centers and broadcasting entities under Republican and Democratic administrations This report is intended to summarize the discussions findings and recommendations of May 2 2019
